Important Safety Information

- Please read all instructions carefully before assembling this product.
-  Read entire label and all instructions included with gel fuel and fireplace. Property damage, serious injury or death may result if these instructions are not followed.
- When used as directed, Real Flame® gel fuels are safe to burn outdoors. Not for use indoors.
- Where applicable, and for your safety, assembly by an adult is strongly recommended.
- Use only vendor-supplied 13 oz. fuel can that fits inside of the reservoir.
- Keep away from children, cleaning solvents or chemicals.
- Do not move the device while lit or in use.
- Do not leave the lit device unattended.

WARNING

- **Gel fuel is flammable. Failure to follow w the above instructions and these warnings can result in serious injury, death or property damage.**
- Gel fuel cannisters are single use only. Do not refill cannisters. Risk of serious burn injury or death can occur if fuel is poured into a cannister or fire pot that is still burning or hot.
- Never add fuel to a fire pot or other product designed for use with gel fuel cannisters. Adding fuel to a fire pot could result in flare-ups or flashback resulting in serious burns, death or property damage.
- Fire pots and gel fuel are hot and can burn. Do not attempt to move or touch a lit fire pot or gel fuel cannister. Touching a lit or hot fire pot or cannister can result in burns or spilling of gel fuel resulting in fire.
- Improper use of gel fuel or gel fuel products can result in serious injury or death. Only use gel fuel cannisters in approved products. Failing to do so can result in fire, serious injury, or death.
- Heat rising from lit cannisters can burn or ignite items above. Allow open space of at least three feet above gel fuel cannister. Allowing insufficient space above cannister could result in fire, serious injury, death and property damage.
- Do not store or use near items that spark or near gasoline and other flammable materials. An open flame or intense heat could ignite fuel or vapors that might leak and travel from these containers, which could start fires or cause the containers to explode.

ASSEMBLY INSTRUCTIONS

- In case of fire use a CO2 fire extinguisher or baking soda to extinguish flames.

Real Flame® Gel Fuel contains isopropyl alcohol.

Avoid contact with eyes, mucous membranes or prolonged contact with skin.

May irritate eyes. If gel gets in eyes, flush with water for 15 minutes; get medical attention. If ingested, do not induce vomiting; call a poison control center or a doctor.

Before Assembly

- Use the components listed below to identify, inventory, and separate each of the components included.
- To avoid accidentally discarding components, do not dispose of any packaging or contents of the shipping carton until assembly is complete.

Care & Use

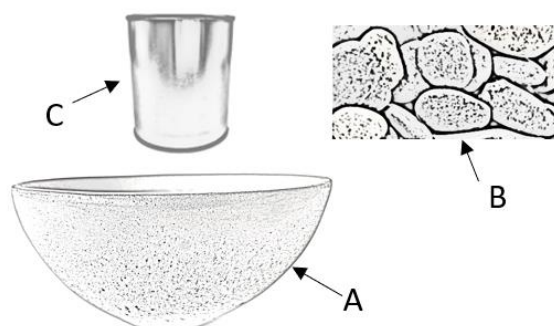

- Stone filling can be wiped clean with a damp cloth. Do not use cleaning solvents or chemicals.
- When not in use, store Real Flame® gel fuel cans indoors, away from sun in a cool, dry place.
- If the device gets wet from rain, empty water before lighting.
- Do not add fuel can to a hot device.
- Use only in well-ventilated areas. Keep away from heat, open flames, such as a pilot light, and anything that sparks.
- Shake can well. Remove paper label.
- Contents may be under pressure. Open carefully. Place hand over lid and open away from you. Save lid for later use.
- Do not pour or scoop gel out of the can. Light Real Flame® gel fuel only when can is placed in the designated area in unit. Wipe up spills. Use a long match or extended butane lighter to ignite fuel.
- Never move or replace cans while they're burning. Cans get hot. If they are dropped or burning fuel is spilled, it could injure people or set surroundings on fire.
- Do not refill or add any kind of fuel to gel cans.
- Do not obstruct or inhibit the flame by placing anything in or over the can.

ASSEMBLY INSTRUCTIONS

- Do not burn more than the maximum number of cans specified in the instructions.
- To extinguish flame, wipe off excess gel on lid and replace lid upside down on can with a magnetic lid opener or tongs. Allow cans to cool for 20 minutes before touching them.
- Real Flame® gel fuel is made specifically for products approved by Real Flame®. Do not use in any other units.
- Use Real Flame® gel fuel within one year of purchase. Always store in a cool, dry place.

Package Contents

Component	Description	Quantity
A	Table Top Fire Bowl	1
B	Bag of Stone filling	1
C	Real Flame® Fuel Gel Cans	3

Product Information

Table Top Fire Bowl – 10.625"D x 5.125"H (27cm x 13cm)

Fuel Can – 3.375"D x 4"H (8.5725cm x 10.16 cm)
