

# Simultaneously unobtrusive and disruptive

## UHF Series 46" digital signage

Slimmer. Lighter. Brighter. The UHF Series digital signage display is as easy to install as it is to see. At under 2" slim and under 30 lbs. light, installation is made simpler than ever. Use it in a retail location to promote seasonal merchandise. Install it for use as a conference center. Configure it as an affordable video wall in a public space. With 24/7 runtime, 700 nits brightness and a screen that's 11% anti-reflective, it's ideal for nearly everywhere you want to deliver a sharp, clear, bright, impactful message.

## Key features

### Slim depth to fit your design

Sleek and slim, the UHF signage display measures just 1.9" thin. It's more than 50% thinner than comparable conventional signage models.

### Light weight for easier installation

With a reduced weight of just 29.1 lbs., installation is greatly simplified. It's easier than ever to leverage the advantages of digital signage.

### 700-nit brightness, non-glare panel for high visibility

The 700-nit panel makes messages easy to see and text easy to read, even in indoor environments that are brightly lit by either natural or artificial light. The non-glare panel is 11% anti-reflective to help minimize glare, for even greater legibility.

### 24/7 runtime for reliable, continuous operation

Commercial-level cooling technologies offer dependable reliability. Samsung UHF Series panels are designed to deliver messages around the clock, while also delivering peace of mind.

### UHD daisy chain support for simplicity

UHD Daisy Chain support via DP1.2 or HDMI enables up to 25 displays to be connected together. Content is more easily managed, with greater flexibility.

### Ideal for nearly every application

The UHF display is an ideal signage solution for retail, quick serve restaurants, public spaces, conference rooms, SMB, automotive dealers, and any business requiring a cost-effective videowall solution.
