

Stunning imagery, comforting price

S22E650D

21.5" desktop monitor

Advanced image quality and eco-friendliness at an affordable cost. It's why businesses are choosing Samsung's SE650 Series desktop monitors. For users requiring better image quality than a standard TN-based monitor, the 21.5" Samsung S22E650D utilizes Samsung's PLS panel technology. It delivers outstanding picture quality, as well as wide 178° viewing angles. The S22E650D also features approximately 30% recycled material, less than 0.005W Off Mode power consumption, and a fully adjustable stand to keep users comfortable. Rounding out the features are VGA, DVI, USB and DisplayPort connections, VESA mount compatibility, a matte black bezel with clearly labeled buttons, speaker bar compatibility and a 3-year warranty. The Samsung S22E650D. It only looks expensive.

Key features

Environmentally friendly

Industry-leading features include approximately 30% recycled material, less than 0.005W power consumption, Eco features to reduce power consumption when monitor is in use, and fully recyclable packaging.

Impressive picture quality

The LED-backlit LCD screen delivers sharp, bright, beautiful images. Mega infinity dynamic contrast ratio ensures subtle detail even in the lights and darks, and MagicAngle technology delivers improved color even when viewed off-angle.

Slim design that fits any desk

The sleek, stylish design and low-profile stand take up less desk space and contribute to a cleaner-looking office. The built-in cable management feature also contributes to a clutter-free work environment.

Ergonomic, adjustable stand

The monitor swivels, tilts, pivots and is height-adjustable, for greater user comfort. And since the monitor is VESA compatible, installation on a wall or separate mounting arm is easy.

Fast, easy connectivity

VGA, DVI, USB 2.0 x 2 and DisplayPort 1.2 give users flexibility in high-speed connectivity. Whatever devices users need to connect to today or in the future, the S22E650D keeps everyone's options open.

Easy on the eyes

When Eye Saver Mode is active, blue light levels are lowered, for reduced eye strain during long work hours. Flicker-free technology adds further viewing comfort by eliminating flickering at all levels of brightness.

Speaker bar ready

The Samsung SPU10 (sold separately) is designed to be attached seamlessly to the back of compatible Samsung monitors. It adds rich stereo sound without taking up an inch of desk space.
