## KEY FEATURES

### WQHD 2560 x 1440 Resolution

At nearly twice the resolution of a standard monitor, the 27" S27D850T allows you to see more, more clearly. With more resolution, smaller fonts are legible, and details in photos, videos and illustrations are more discernible.

### 100% sRGB Color Compliance

For those professionals who depend on accurate color, the S27D850T is 100% sRGB compliant. From conception to output, your color will be exactly the color you specify. Plus with a 178 degree wide viewing panel, the image is clearly viewable at off angles.

### Split Screen and Picture in Picture

Twice the resolution allows twice the screen information. With split screen and PIP, you can view two distinct video inputs simultaneously. Code in one window and see the results in the other. Compare your photo or document revisions with the original while you work. Read your email in one screen while editing a document in the other.

### Ergonomic and Slim Bezel Design

The new SD850 Series monitors deliver not only great image performance, but also enhanced ergonomics and a beautiful, beveled slim-bezel design that looks great, on or off. Enhance your productivity and your desk with the Samsung SD850 Series monitor.

## 27" WQHD BUSINESS MONITOR WITH 100% SRGB COLOR COMPLIANT PLS PANEL

The more information you can see, the more you can do. With a resolution of 2560 x 1440, the Samsung S27D850T monitor has nearly twice the resolution of a standard 1920 x 1080 monitor. That means text and numbers are more easily read and details are more easily discerned, especially at smaller sizes. You can fit more usable information on your screen at a time. More palettes. More windows. More columns and rows on a spreadsheet. More everything. Plus, 100% sRGB color compliance makes this the perfect monitor for professionals who demand accurate color reproduction. **The New Business Experience**
