Impact business, not the environment

S27E650D

27" desktop monitor

Can advanced image quality coexist with eco-friendliness? It can with the Samsung SE650 desktop monitor lineup. The 27" Samsung S27E650D utilizes our PLS panel technology to deliver crisper fonts and images than a standard TN-based monitor. Picture quality is outstanding, as are the wide 178° viewing angles. Taking sustainability to the next level, the S27E650D features approximately 30% recycled material, and less than 0.005W Off Mode power consumption. The fully adjustable stand keeps users more comfortable, focused and productive, and the matte black bezel with clearly labeled buttons puts controls right up front. Rounding out the features are VGA, DVI, USB and DisplayPort connections, VESA mount compatibility, speaker bar compatibility and a 3-year warranty. The Samsung S27E650D. Eco-friendly meets image superiority.

Key features

Environmentally friendly
Industry-leading features include approximately 30% recycled material, less than 0.005W Off Mode power consumption, Eco features to reduce power consumption when monitor is in use, and fully recyclable packaging.

Impressive picture quality
The LED-backlit LCD screen delivers sharp, bright, beautiful images. Mega infinity dynamic contrast ratio ensures subtle detail even in the lights and darks, and MagicAngle technology delivers improved color even when viewed off-angle.

Slim design that fits any desk
The sleek, stylish design and low-profile stand take up less desk space and contribute to a cleaner-looking office. The built-in cable management feature also contributes to a clutter-free work environment.

Ergonomic, adjustable stand
The monitor swivels, tilts, pivots and is height-adjustable, for greater user comfort. And since the monitor is VESA compatible, installation on a wall or separate mounting arm is easy.

Fast, easy connectivity
VGA, DVI, USB 2.0 x 2 and DisplayPort 1.2 give users flexibility in high-speed connectivity. Whatever devices users need to connect to today or in the future, the S27E650D keeps everyone's options open.

Easy on the eyes
When Eye Saver Mode is active, blue light levels are lowered, for reduced eye strain during long work hours. Flicker-free technology adds further viewing comfort by eliminating flickering at all levels of brightness.

Speaker bar ready
The Samsung SPU10 (sold separately) is designed to be attached seamlessly to the back of compatible Samsung monitors. It adds rich stereo sound without taking up an inch of desk space.
