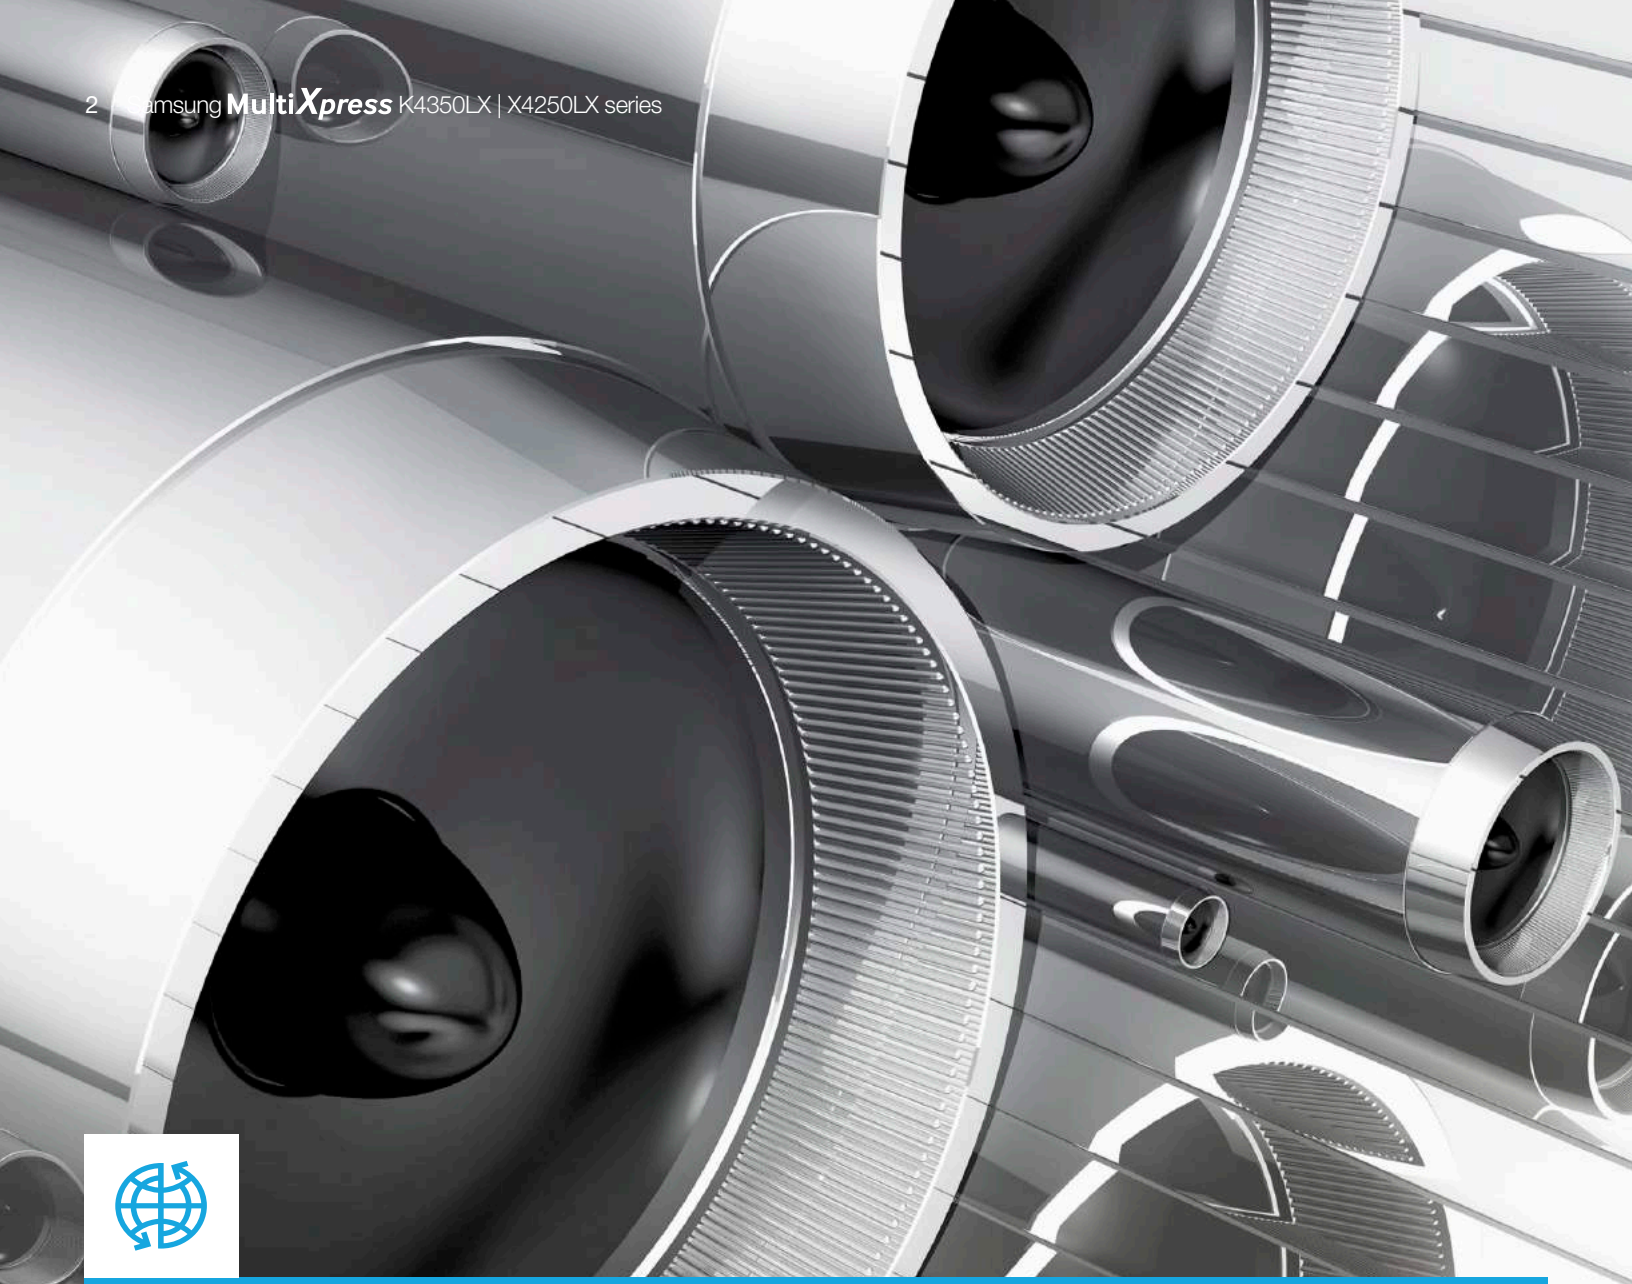
Mono laser print, copy, scan, fax MFPs

SAMSUNG

Interactive printing for the modern workforce



Printing innovations for the way you do business

To stay ahead, it's critical that businesses avail themselves of every advantage at their disposal. Samsung is dedicated to providing those advantages, year after year.

With a focus on boosting productivity and efficiency through innovative technology, Samsung offers differentiated products and solutions. The MultiXpress K4350LX/K4300LX/K4250LX MFPs, for example, incorporate a world-first Android operating system. It's innovations like this that have led to our A4 laser printers earning the No. 2 position in global market share, while our A3 MFPs continue their strong growth.

As ways of doing business continue to evolve, Samsung will remain at the forefront of optimized solutions and services that advance business. As will our customers.

The MultiXpress K4 Series MFPs bring innovation to the BYOD workforce

The speed of business is constantly increasing, and to keep pace, more workplaces are embracing bring your own device (BYOD) policies. As smartphones, tablets and cloud computing in the office lead to more efficient and seamless operations, as well as highly productive employees, businesses want to extend that same smart technology to all devices. Samsung's MultiXpress K4 Series MFPs offer the interoperability of cutting-edge mobile devices in a print solution that can be easily managed, all while delivering powerful performance at reduced costs.

Samsung Smart UX

The Samsung Smart UX is a unique Android-based interface that makes printing easy and productive. It offers the simple touch-to-print usability of a touchscreen, plus access to hundreds of productivity-enhancing apps.

Samsung Mobile Compatibility

The MultiXpress K4 Series MFPs integrate seamlessly with an organization's BYOD policies. Wireless and NFC printing are easily enabled, for secure, PC-less printing with just a tap.

Samsung Performance and Productivity

The MultiXpress K4 Series MFPs offer technologies that deliver professional-level documents, so organizations can work quickly, efficiently and productively.

Samsung Customizability

The MultiXpress K4 Series MFPs feature an open architecture (XOA) that allows them to be configured to work with leading third party software partners, delivering a customized workflow and optimum performance, efficiency and security.

The Samsung Smart UX: more than just a pretty interface

The unique Android-based interface offers the ease of a touchscreen display, along with access to hundreds of productivity-enhancing apps.

Easy-to-use interactive screen, just touch to print

The MultiXpress K4 Series MFPs provide simple, innovative usability through the Samsung SMART UX Center, the very first Android printing User Interface (UI). These user-friendly interfaces provide intuitiveness, usability and extensibility.

Samsung User Interface Center powered by Android™

Choose from hundreds of productive apps

Preloaded applications include Copy, Scan/Send, Box (Document Storage), Job Status, Counter, Settings, Build Job, Address Book and Help. In addition, there are custom widgets for creating instant, one-touch access to frequently used functions. Access even more useful features and solutions by downloading them through the Samsung Print App store.

Create custom shortcuts in a snap

To speed workflow and simplify use, administrators can create custom shortcuts directly on the device. Users can instantly perform complex tasks with one click.

Edit and print content directly from the UI

Open and edit documents right on the UI before printing. Usability can be further extended with the built-in Web Print Browser, which allows you to find and print content such as maps, pictures, e-mail and more, all without the need for a PC.

Customize the user interface

Maximize ease of use by customizing the UI environment for each user with My Page or My Programs. It's a virtual desktop set up with a user's own wallpaper, apps and settings, ready whenever the user is. The UI also makes it simple to keep track of an individual's usage, control accessibility and more. Administration can lock any type of widgets or functions.

Mobile compatibility allows users to work the way that's most efficient for them

The MultiXpress K4 Series MFPs are fully compatible with BYOD initiatives. Wireless and NFC printing are easily enabled, for printing directly from mobile devices.

Meet a mobile workforce's printing needs easily and securely

Samsung Wireless, Bluetooth and NFC printing support various mobile printing solutions with just a tap, including:

User Authentication: Enable authorized users to tap and print to a Samsung MFP from their mobile devices.

Easy Wireless Setup: Configure wireless (IP) print setup from mobile devices without complicated activation steps.

Secure Printing: Authorize secure release of documents held in the printer's memory with Samsung Business Core Printing Solutions and your mobile device.

Device Cloning: Clone standardized functions of an MFP.

Google Cloud Print: Users can print over the web to the MultiXpress K4 Series MFPs with any device from anywhere at any time.

Bluetooth, NFC and cloud-based printing offer ultimate flexibility. Tap to print, scan or fax with any Bluetooth/NFC mobile device.

The Samsung Mobile Print app makes the smartphone smarter

The Samsung Mobile Print app is available as a free download for both the Android and iOS platforms. Print, scan and fax directly to and from the MultiXpress K4 Series MFPs via Wi-Fi Direct with a smartphone or tablet. The Samsung Mobile Print app will enable users to access any Samsung printer or MFP on a local wireless network, to print emails, PDFs and Microsoft® Office documents, all without the need for an external server or PC. Increased productivity is made simple.

Samsung's Mobile Print solution earned the Summer 2012 Pick as "Outstanding Mobile Print App" from Buyers Lab, Inc.

PrinterOn is the world's leading enterprise-grade mobile printing platform, and is designed for any organization that wants to provide simple, secure mobile and cloud printing.

PRINTERON

Increased performance leads to increased productivity

The MultiXpress K4 Series MFPs give organizations the performance advantages they need to communicate quickly, efficiently, clearly and professionally.

Scan at high speed

The Dual Scan Document Feeder (DSDF) delivers high-speed scanning output of up to 80 single-sided images per minute (ipm) and up to 120 double-sided ipm.

Ultra-fast dual scan up to 120 ipm

1 GHz Dual-core CPU

Faster print processing

A 1 GHz dual-core CPU provides the power and capacity to manage print and copy jobs of any size or complexity.

Get sharper-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology delivers professional-quality output with sharp text and clean images. And with a superior resolution of 1,200 x 1,200 effective dpi, scans, printouts and organizations will always look professional.

Edge Enhancement

Negative Sharpening

De-ICE (Integrated Cavity Effect)

De-Screening

Efficient, low TCO printing while saving resources

Samsung consumables are engineered to perform optimally and efficiently with Samsung machines, resulting in a lower total cost of ownership and less frequent replacements. Options include a long-life drum and high-yield toner.

MLT-0708S:
Black Toner
(35,000 page yield*)

MLT-R708:
Image Unit
(200,000 page yield*)

*Declared cartridge yield in accordance with ISO/IEC 19752

Customized solutions without compromising security

The MultiXpress K4 Series MFPs can be customized for optimum performance within verticals, delivering professional quality documents quickly, easily and securely.

Samsung XOA: Create a powerful, customized and cost-efficient printing environment

Samsung eXtensible Open Architecture is a powerful open platform that lets businesses customize Samsung MFPs to suit their specific needs. Samsung partners with proven third-party vendors to offer the most powerful and efficient solutions.

Samsung Business Core™ Printing Solutions (BCPS)

XOA for Education: Helps balance the need for high-volume print production with the reality of ultra-tight budgets. Solutions offer high security, along with features that streamline work processes.

XOA for Healthcare: Customized solutions meet healthcare professional needs by providing workflow and cost accounting solutions that facilitate the smooth dissemination of information, while adhering to strict confidentiality guidelines.

XOA for Retail: Samsung XOA allows customized solutions that deliver the management tools retail IT administrators need.

XOA for Government: Samsung solutions meet the most stringent security requirements, including DoD and Federal requirements, and easily integrate into legacy systems.

XOA for Finance: Finance solutions deliver the ability to manage large volumes of documents quickly and efficiently, while also adhering to strong regulatory requirements.

XOA for SMB: For small to medium-sized businesses, we've created Samsung Business Core™ Printing Solutions (BCPS), a specially selected software suite that offers the kind of print and document management solutions typically seen only in enterprise.

Configure your MFP to deliver a flexible print solution

The MultiXpress K4 Series MFPs can meet the needs of businesses of varying sizes, and in varying industries.
