SAMSUNG
BUSINESS

Turn office productivity and workflow
into a business strength

Give your business the strength of a global, multi-billion dollar company

There's no denying the power of the Samsung name. Samsung is one of the most forward-thinking and respected brands in the world, with employees and operations in more than 60 countries. We invested \$13.8 billion into R&D in 2014, and our global R&D team of researchers and engineers includes 50,000 employees across 42 global facilities. We do it for one simple reason: To give you a full spectrum of innovative business products that help you improve efficiency, raise productivity and lower costs.

Samsung empowers businesses to make better use of time and budget

The merging of office and mobile devices allows companies to take control, increase productivity, provide greater security, and customize processes in ways never before imagined. Samsung's innovative technologies put Samsung printers and MFPs at the heart of business operations. We enable SMBs to become more competitive by producing professional-looking documents and presentations at lower costs and in less time. Equip your company with a Samsung printing solution, and improve the way you do business.

ProXpress M4080FX

ProXpress M4030ND

Deliver gains in productivity, speed and quality

- The Samsung M4080FX offers a more productive user experience with an intuitive 7-inch capacitive touchscreen, and with Samsung's Dual Scan Document Feeder (DSCDF) technology, you can scan dual-sided documents at speeds of up to 60 ipm
- Produce superior quality text and images with Samsung Rendering Engine for Clean Page (ReCP) technology
- Add up to three optional 550-sheet Second Cassette Feeders (SCF) to the M4080FX for up to a 2,300-sheet capacity, and add up to four to the M4030ND for up to a 2,850-sheet capacity, so you can print your largest jobs without having to reload
- Finish printing jobs in less time with a 1GHz dual-core CPU

Experience customized solutions and improved device management

- Work more efficiently by tailoring ISV and Samsung solutions to your company's needs via the Open Architecture-Embedded (XOA-E) platform
- Increase efficiency using easy-to-install and easy-to-manage serverless in-house solutions
- Manage your entire printer fleet from any location
- Engage mobile tap-to-print functionality using mobile authentication (with optional active NFC)

Lower your TCO and increase security

- Efficiency and speed allow you to save money on energy use while increasing printer performance
- Reduce downtime with a best-in-class maximum monthly duty cycle of 120,000 pages
- Enterprise-level security ensures more secure printing and data management

Drive productivity with high-speed, exceptional prints and MFP functionality

Intuitive 7-inch capacitive touchscreen (M4080FX only)

The M4080FX MFP includes a generous, 7-inch, highly sensitive touchscreen. It provides an enhanced user experience with the same responsiveness and ease of use as a smartphone or tablet touchscreen.

Paper handling to fit your requirements

The M4030ND printer can be configured to handle up to 2,850 sheets of paper, while the M4080FX can handle up to 2,300. A 550-sheet tray and 100-sheet multipurpose tray are standard, and configuration options include adding 550-sheet Second Cassette Feeders (SCF) to extend paper availability. Add up to four with the M4030ND and up to three with the M4080FX.

Powerful processor for fast printing

A 1GHz dual-core CPU with 256MB (M4030ND) or 1GB (M4080FX) of memory that's expandable to 2GB enables print speeds of up to 42 pages per minute (ppm).

Edge enhancement

Negative sharpening

De-ICE (Integrated Cavity Effect)

De-screening

Crisp, clear printing

Rendering Engine for Clean Page (ReCP) technology improves readability of printed documents by sharpening and compensating for misaligned edges, as well as by removing minor dots and halftone patterns to create the best printed document possible.

Enterprise-level security

Samsung's enterprise-level encryption and overwrites (up to 7) ensure end-to-end security, even when working remotely. Samsung printers and MFPs are also easily integrated with legacy enterprise security applications, as well as existing print management and workflow solutions.

- Protects company's data and print jobs by maintaining digital signatures and logs.
- Enables administrators to lock and disable the control panel as well as restrict the direct printing access of the USB port.
- Allows approved users to authorize the secure release of documents via Business Core™ Printing Solutions (BCPS) through their mobile devices.
- Offers secure printing, easy Wi-Fi setup and management with the Samsung MobilePrint Pro app.

Wireless option with active NFC

Users can connect and print with ease using Samsung's advanced NFC technology. Simply tap and print with the M4030ND or M4080FX. You can also scan or fax documents with the M4080FX from any NFC-supported mobile device. The wireless option with active NFC provides easy Wi-Fi setup, cloning and management through a mobile device, while Samsung Mobile Print Pro provides user authentication and job accounting.

NFC function is available with a wireless/NFC kit

Create a customized and cost-efficient workflow system

Seamless manageability and flexibility with a secure platform

The eXtensible Open Architecture (XOA) empower your business to seamlessly run custom or independent software vendor (ISV) server-based productivity solutions that meet your specific business needs. XOA can make printing output comply with your account policies, integrate with your Document Management System, set and enforce printing rules, and more.

Samsung MPS, mobile, security and productivity solutions

Samsung's strategic partnerships allow us to offer simplified, seamless solutions that increase both security and office productivity.
