

Work without barriers.

Intuitive connectivity. Seamless experience. Defense-grade security. Get more done in work and life.

It's not just about being productive. It's about being productive everywhere. The Samsung Galaxy S8/S8+ smartphones have been completely redesigned to help you get more done in work and life.

B Flexibility and freedom to accomplish more than you ever imagined.

Bixby Home: Just what you need, when you need it. Tap the dedicated button to access the Bixby Home screen, which serves up learned apps and content based on your location and habits.

Bixby Vision: See more than meets the eye. Bixby brings vision intelligence to the camera with image recognition technology that allows you to natively read QR and UPC codes and business cards, perform text translation and visual search, and recognize points of interest.

Bixby Reminder: Remember every little thing. Use Bixby Reminder to keep track of the most important things throughout your day. Bixby can remind you to call before your next client meeting, or even keep track of your place in an article online.

Advanced 12MP and 8MP cameras: Capture the moment brilliantly. An advanced 12MP F1.7 Dual Pixel rear-facing camera allows virtually blur-free image and document capture even in low-light conditions. An 8MP F1.7 Smart Autofocus front-facing camera enables crystal-clear video calling and conferencing.

☼ Advanced features designed to help you achieve without limits.

Infinity Screen: Work bigger, work better on a screen without limits. With an infinity display that wraps from edge to edge, you can see more, show more and do more in a way that not only helps you look professional, but keeps you looking forward. You can use multiple windows to edit documents and text with a full-size keyboard, and send files all at the same time, on one large, stunning display.

DeX: A desktop experience from your smartphone. If there's a monitor, you're in business. Connect the Galaxy S8/S8+ to a monitor, keyboard and mouse¹ for a rich desktop-like experience complete with contextual menus, drag-and-drop functionality and multiple, resizable windows. Now you can stay productive from almost anywhere.

Improved CPU: Perform faster with a phone that moves at the speed of business. Don't worry about the number of apps you have open. With the world's first 10nm Octa-core processor, the Galaxy S8/S8+ smartphones are faster, more powerful and more energy-efficient than ever before, to keep you running at top speed.

Fast wireless charging:² Fast and easy. Power up without having to plug in, and keep your productivity up and running.

Water and Dust Resistance:³ The phone that goes almost anywhere. With an IP68 rating for water resistance, the Galaxy S8/S8+ smartphones help you continue to work in up to five feet of water for 30 minutes, and they're protected from dust, dirt and sand. Now not even Mother Nature will slow your productivity.

🛡️ Defense-grade security delivers proven security and data protection wherever you are.

Samsung Pass: Easy authentication. Never forget a password again. Now you can manage every profile and password with ease.

Biometric Identification: It's your phone. Keep it that way. Advanced iris scanning and fingerprint identification mean the Galaxy S8/S8+ smartphones unlock with just a simple look or touch.

Secure Folder: Keep business and your personal life separate and secure. Samsung Knox™ keeps your work information separate from your personal information, ensuring that what's yours, stays yours.⁴

Samsung Knox: Defense-grade security platform.⁴ Samsung Knox is a security platform built from the chip up for easy manageability. Trusted by 29 governments and voted the "most strong" mobile security platform by Gartner, Knox keeps hackers out and your data safe from the second you turn on your Galaxy S8/S8+.

Galaxy S8 | S8+
