### Enhance productivity, anytime, anywhere.

Equip your team with the business-critical tools they need to be productive at a moment's notice. Review, edit and collaborate on preloaded Microsoft® Office\* programs with ultrafast processing speeds. Take notes intuitively with the S Pen even when the screen is off. And multitask easily when you drag and drop information between multiple open apps using Multi Window.

### Always ready to make a lasting impression.

Motivate your workforce with a superior mobile design inside and out. The brilliant 5.7" Super AMOLED display and elegant design gives your work the clarity and beauty it deserves. Ensure maximum uptime and minimum interruption to the workday with innovative charging and power saving solutions like Adaptive Fast Charging<sup>†</sup>, Wireless Charging<sup>††</sup> and Ultra Power Saving Mode.

### Protect sensitive data.

Only Samsung Galaxy devices are protected by Samsung KNOX security right out of the box. Every Samsung device meets government-grade security standards, including Common Criteria Certification from the National Information Assurance Partnership and DoD Approval from the Defense Information Systems Agency. Samsung KNOX safeguards company data on the Samsung Galaxy Note5 on hardware, application and software levels and keeps work and personal files separate. Plus, the built-in fingerprint scanner adds another barrier of protection.<sup>†††</sup>

### Integrate with ease.

Maintain consistency in mobile management while adopting new technologies. Seamlessly integrate new Samsung devices into your existing or desired MDM solution to satisfy your enterprise's IT policy requirements.
