SAMSUNG

Samsung and Neverware could help your Chromebook budget go twice as far

The Samsung Convert to Chrome OS Solution featuring 11.6" Samsung Chromebook 3 and Neverware's CloudReady

Samsung Chromebook 3 delivers a best-in-class Chromebook, while CloudReady OS extends the lifecycle of your existing legacy hardware

There's no need to wait any longer. You can embrace the advantages of Chromebooks right now. When you invest in the Samsung Convert to Chrome OS Solution, you'll get the Samsung Chromebook 3 machines and CloudReady licenses you need to convert and extend the life of your legacy equipment. Whether Chromebooks, PCs or Macs, all your machines will be unified under the same Chrome management platform, and provide a single, consistent experience. It's the most streamlined and most cost-effective way to modernize your classroom and propel your students to greatness.

This total solution includes:

100
11.6" Chromebook 3 (choice of 2GB or 4GB)

100
CloudReady licenses

200
Google device management licenses

The Samsung Convert to Chrome OS Solution

100 11.6" Chromebook 3
(choice of 2GB or 4GB)
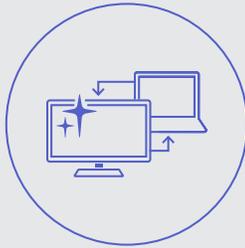

100 CloudReady
licenses

200 Google Device
Management Console licenses

Tech support

100 11.6" Chromebooks for a best-in-class move to Chrome OS

The Samsung Chromebook delivers an active, engaged student experience with the ultimate combination of best-in-class technology and a low barrier to entry. Enhance learning, foster collaboration and inspire students with the Samsung Chromebook 3.

• Tested and passed MIL-STD (U.S. Military Standard) tests; passes a 48" (122cm) drop test[1]

• 11-hour battery easily lasts all day, but if for some reason a charge is needed, a 15-minute charge provides 2.5 hours of use

• Large 11.6" anti-glare display with 180˚ hinge makes sharing ideas simple

• Slim, streamlined profile of 0.7" thin, and light weight of just 2.54 pounds makes it easy for young hands to handle

100 CloudReady licenses to convert your legacy hardware

The CloudReady operating system offers schools and districts a cost-effective and efficient pathway to 1:1 adoption, by bringing the Chromebook experience and management to existing PCs and Macs.

• Turns legacy machines into cutting-edge learning tools

• Simple to install, converts each machine in just a few minutes

• Converted devices can be managed using the same web console as the Samsung Chromebook 3

200 Google Device Management Console licenses to control all machines from a single place

The Google Device Management Console is a web-based management console that makes it easy to deploy and control users, devices and apps across all your Chromebooks. By converting existing PCs and Macs to CloudReady machines, technology administrators no longer need to manage devices across different operating systems, saving time and money.

• **Track Assets** Assign devices to users and get configuration and usage reports

• **Create User Groups** Apply policies, apps and settings to different sets of users

• **Pre-Install and Block Apps** Blacklist, whitelist or pre-install apps, extensions and URLs

• **Control User Access** Prevent outside users from logging in, disable Guest Mode, or designate the specific users within your domain that can use a Chromebook

• **Configure Network Access** Set network and proxy settings to make it easy for users to get up and running and ensure they're protected by web filters and firewalls

• **Customize User Features** Modify user settings like bookmark and app sync across computers and brand your devices with custom Chrome themes

Tech support to get you set up and ready to go

Samsung supports you with dedicated toll-free support, so your devices are set up and ready to use in the classroom. Educators can spend more time educating.

CloudReady Support is there if you need assistance every step of the way – from installation on your PC to using CloudReady everyday in the classroom. Reach out to Neverware's New York offices anytime via chat, email or phone.
