- Wi-Fi Embedded
- Electronic Touch Controls
- Humidity-Controlled Crispers
- Internal Filtered Water Dispenser
- Child Lock
- Sabbath Mode
- Door Alarm
- Samsung Genuine Water Filter with Indicator

### Rating

ENERGY STAR®-rated:  
549 kWh/yr

## French Door, 36" Built-In Refrigerator

21.3 cu. ft. Capacity

# BRF365200

### Dimensions

### Installation Specifications

1. Ensure that there is enough space to install the unit and open its door. Measure the height, width and depth of the opening, making sure to include baseboards, molding tile, etc. Consider walls, islands or other obstacles. The floor also needs to be level to prevent the unit from vibrating noisily.
2. Verify that power is available.
3. Allow 1" minimum clearance at rear for proper air circulation and water/electrical connections. Provide a 3/8" minimum clearance at sides and top for easier installation.
4. Install the unit in an area with the temperature range of 41°F – 109°F. Avoid a place that is too hot or too cold to maintain the unit's cooling performance and appropriate power consumption.

Please note: The following dimension and cutout information is for planning purposes only. For complete installation details, consult manual packed with product, or download manual online at [samsung.com](http://samsung.com).

**Total Capacity: 21.3 cu. ft.**

**Refrigerator: 14.5 cu. ft.**

- Ice Maker
- Chef Pantry with Temperature Controls:
  - Cheese (37° F)
  - Cold Drinks (33° F)
