

Strap on greater safety and effectiveness.

Gear S3 frontier Ruggedized Smartwatch

Introducing a reliable partner that can improve law enforcement personnel safety and effectiveness. The Samsung Gear S3 frontier smartwatch pairs with your department's Android phones to deliver improved communications in the field. Officers and agents can receive instant updates, run tags, request assistance, even automatically activate their body cam when a pursuit is detected. And maybe most importantly, your personnel can instantly and silently send a preprogrammed SOS message at the single touch of a button that is always on their wrist. The Samsung Gear S3 frontier. Your team's newest partner in safety and effectiveness.

Key Features

Stay in Contact

The Gear S3 is LTE/Wi-Fi Bluetooth-connected,¹ so officers can receive alerts, BOLOs and suspect info in the field without reaching for their phone. They can run tags, connect to their walkie-talkie, record audio, request assistance and automatically activate their body cam when pursuit is detected. They can also instantly and silently send a preprogrammed SOS message to predetermined contacts at the single touch of a button.

Always Know Where Your Team Is

The built-in GPS ensures your team can always be found quickly, which can make all the difference in a critical situation.

Rugged Design

The rugged, tough-textured design and Gorilla Glass SR+ help the Gear S3 withstand some of the worst abuse, and look good doing it.

MIL-STD-810G Spec Compliance

The Gear S3 passed 21 rigorous tests to achieve military-spec compliance and become certified MIL-STD-810G.² From drops to vibrations, from extreme temperatures and altitudes to shocks, from humidity to salt fog, rain, dust and sand, the Gear S3 won't let you down.

IP68 Certified

With IP68 water and dust resistance, the Gear S3 keeps working even when submerged in up to five feet of water for 30 minutes, and is protected from dust, dirt and sand.³ In harsh weather or an emergency situation, a wearable is the last thing your team should be concerned with.

Secured by Knox 2.0 for Tizen OS

Knox is Samsung's defense-grade mobile security platform, compatible with the Tizen OS to deliver enhanced security for wearable technology. Protect sensitive data accessed from your Samsung Gear S3 smartwatch.

Android Compatible

The Gear S3 is compatible with most Android™ phones⁴.
