

Quickly maximize the potential of Knox mobility management.

Samsung Knox offers enterprise-level protection and management. Our remote QuickStart Services experts can assess your needs, then help set up Knox Premium Mobility Management solution just the way you need it. We offer three simple packages: Control, Application Control, and Secure Control. With Samsung Knox and our QuickStart Services, you can remotely control your mobile devices, deploy applications to your employees or implement a secure email and data partition. Work more productively and more securely.

Tailored for Small and Medium Business

Mobile Management the Way You Need It

Samsung Knox Premium is a powerful tool that can help your business in so many ways. Our remote QuickStart Services experts will assess your needs and help deploy Knox to manage your mobility fleet efficiently and productively.

Saving Time Saves You Money

Thoroughly understanding and deploying any IT solution to achieve maximum benefit takes time. That's time you could be using to grow your business. Samsung QuickStart Services can speed deployment and help prevent time-consuming mistakes.

Our Experts are Here to Help

Our QuickStart Services experts can help you with as much technical expertise as you need. We'll walk you through the setup process, show you how to efficiently manage your devices, and help you and your business get the most from Knox Premium.

Three levels of mobile management.

What level of mobile management do you need? Our experts can help you decide if you need Control, Application Control, or Secure Control, to get the most out of Knox Premium.

- Control assists you in configuring Knox Premium to manage devices with features such as Remote Wipe and Lock, and Locate Your Device.
- Application Control does everything Control does, but also handles the management and deployment of applications, as well as restriction of device capabilities.
- Secure Control does all of the above but adds enhanced security and integration with your existing infrastructure such as Active Directory and Exchange Email servers.

Getting Started is Quick and Easy

1. Select the QuickStart Service that you think best matches your specific needs, and order the corresponding part number from your reseller or carrier.
2. We will then contact you and confirm that your purchase is the best fit for you and your needs.
3. We'll schedule a time to walk you through the Knox Premium set-up and configuration so you can easily make adjustments later.

Custom Deployment Services

Samsung QuickStart Services are limited to configurations of fewer than 500 devices and a maximum of 8 user/administration groups. If you have specific requirements beyond those provided by QuickStart Services, including integration with third-party solutions, please contact your partner or your carrier, or email: samsungbusinessservices@sea.samsung.com
