# ANCHOR GUIDE / GUIDE D'ANCRAGE / GUÍA DEL ANCLA

ShelterLogic shelters, canopies and garages come with a basic "install" end rib anchor kit to secure and square-up the frame during installation. In most situations, additional anchors are recommended. ShelterLogic suggests one anchor per leg.

Tous les abris et tentes ShelterLogic viennent avec un kit d'ancre basic "d'installation", pour chaque bout de l'abri, pour sécuriser et bien installer la charpente et s'assurer qu'elle soit rectangulaire. Dans la plus part des situations, des ancrs additionnelles sont recommandées. ShelterLogic vous suggère une ancre par pieds.

Los refugios, los toldos y los garajes de ShelterLogic vienen con un básico "instalar" el juego del ancla de la costilla del extremo para asegurar y encuadrar - para arriba el marco durante la instalación. En la mayoría de las situaciones, se recomiendan las anclas adicionales. ShelterLogic sugiere una ancla por pierna.
