**Revolutionary Tool Now Delivers Straightening While Drying
Solano Debuts the 2in1 Dryer Attachment**

ATLANTA (July, 2010) —Now, there’s an easier and more gentle way to straighten and dry textured hair thanks to the NEW **Solano 2in1 Dryer Attachment**. It’s a double-duty drying tool that serves as a comb attachment for straightening, with the option to easily remove the comb and convert it to a concentrator for a basic blowout. The added bonus: You no longer have to deal with a comb attachment that continuously pops off the dryer, sharp teeth that dig into the scalp or the need to replace it after every use because the teeth break so easily. The **Solano 2in1 Dryer Attachment** features a stay-tight design that secures the attachment to the dryer and unlocks with a simple twist. The durable, slightly curved teeth are also gentle on the scalp and glide easily through the hair, to help prevent hair breakage and damage. The final results - straight, smooth, hair.

The **Solano 2in1 Dryer Attachment** features the following:

- Comb attachment to straighten and dry hair
- Attachment converts to a concentrator by removing the comb
- Comb features curved teeth that are gentle on the scalp
- Stay-tight design secures attachment onto the dryer and unlocks with a simple twist
- Fits most professional dryers

2in1 Dryer Attachment.....Salon Price: \$15, SRP: \$21
Also available as a set with the SuperSolanoX Dryer in Black.....Salon Price: \$ 129, SRP \$169.

The **Solano 2in1 Dryer Attachment** will be available **November 2010** in beauty stores nationwide and online at www.solanopower.com. For more information, call 1-800-323-3942.
