The inside story...

ADP Indoor Cooling Products

PROTECTION ADP manufactures the only indoor cooling equipment featuring **Microban®** antimicrobial product protection. Microban protection is a unique feature that inhibits the growth of mold and mildew on the drain pan within your evaporator coil. Why does it matter? Just like air filters provide protection against dust, pollen and allergens in your home, Microban technology provides added protection against the build-up of mold and mildew within your system. ADP is a system upgrade to help you breathe easy!

QUALITY ADP strives for perfect products and a trouble-free customer experience. Our advanced designs and testing technology ensure reliable and long-lasting performance. The ADP leadership position within the industry is supported by numerous customer awards for *Performance, Excellence & Quality*. For added assurance, our coils feature the availability of a 10-year limited warranty at no additional cost!

SAVINGS ADP indoor cooling products have been designed to upgrade your furnace and outdoor condensing unit to enhance the overall system performance. Your coil can improve the energy efficiency of your home, providing valuable savings on your monthly energy bills. Many of our indoor coil models are Energy Star compliant and may also help you qualify for local utility rebates and federal tax credit programs.

ADP is the #1 producer of residential evaporator coils manufactured within the USA.

Advanced Distributor Products®

MICROBAN® is a registered trademark of Microban Products Co.

INDOOR AIR QUALITY

- **Microban® antimicrobial product protection**
Inhibits the growth of mold & mildew on the coil drain pan
