

Evolution[®] Connex[™] Control

Programmable Touch-Screen Control

EVOLUTION
SYSTEM

Evolution® Remote Access**

Have you ever been on vacation when a sudden cold front came through at home? Were you afraid that your pipes would freeze? Do you ever wish you could change your home's temperature settings before you leave work so it's nice and comfortable when you arrive home? Would you enjoy the convenience of controlling your home comfort system from your tablet, smartphone or desktop device? With Evolution Remote Access, all of the above scenarios and more can be a reality.

Ease of Use

- The Evolution® Remote Access web site, ***MyEvolutionConnex.com/*** allows easy navigation with its user-friendly design.
- Log on to retrieve your Evolution® System status and settings.
- Change settings for your Evolution® Connex™ Control via the Internet.
- Remote Access offers all of the unprecedented ease of use of the Connex™ Control, including lifestyle programming, all from the comfort of your internet-connected device.
- Remote Access allows you to lower your bills by adjusting comfort settings when no one is at home.

Automatic Notifications

Evolution® Remote Access can email you and your dealer when your home reaches extreme temperatures (high or low), extreme humidity, or has a major equipment malfunction.*** In addition to urgent notifications, Remote Access can send you and your dealer notifications when your comfort system is in need of routine maintenance, and it can send you a routine notification when a system needs a filter, humidifier pad, and/or UV light change.

* Wi-Fi enabled model only, when connected to a Wi-Fi network.

*** When installed as part of a complete Evolution® System

The Perfect Touch for Sup

Setting Higher Standards Since 1904

For more than a century, Bryant has delivered superior quality, reliability, value and comfort to a nation of satisfied homeowners. Our company-wide dedication to doing whatever it takes has motivated us to continuously develop products that advance the capabilities of home comfort systems. And, that's why we're excited to offer the Evolution® Connex™ Control.

The Evolution Connex Control is an industry-leading complete comfort system interface. When installed as part of a complete Evolution System, the Evolution Connex Control puts an unparalleled range of comfort control at your fingertips, from one easy-to-use, high-resolution wall-mounted touch screen. Installed by your trusted local Bryant® dealer and backed by the best name in the business, this product helps deliver the comprehensive whole-home control you and your family deserve.

The Ultimate Comfort Control

The Evolution® Connex™ Control puts you in command of your comfort when you want it, where you want it and how you want it. When installed as part of a complete Evolution System, it's the gatekeeper for all of the many Bryant comfort technologies, including Perfect Humidity® technology,

Evolution® Zoning and more. A Wi-Fi enabled model is also available that's capable of remote programming from a tablet, smart-phone or desktop devices.* And for an added touch, it can display a 5-day weather forecast.* It can even display an uploaded photo as well.

* Wi-Fi enabled model only, when connected to a Wi-Fi network.

Superior Comfort and Energy Savings.

Peace of Mind

Having a great warranty helps you enjoy your comfort with confidence. Bryant builds trusted reliability into every product, then provides additional peace-of-mind with excellent warranty protection.

To the original owner, the Bryant® Evolution® Connex™ Control is covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. The wireless router required to connect the Wi-Fi enabled control to a Wi-Fi network is covered by a two-year parts limited warranty. See warranty certificate at Bryant.com for complete details and restrictions. Be sure to ask your Bryant dealer about optional Extended Service Agreements.

Performance

Comfort at Your Fingertips

High Resolution Color Touch-Screen

Intuitive on-screen prompts and quick-read icons put you in total control. Adjustable brightness optimizes readability in a variety of conditions. And, you can see your dealer's contact information with just a touch.

Pop-Up Reminders

On-screen reminders tell you when it's time to change filters, humidifier pads, UV lights or schedule system checkups. TrueSense™ dirty filter detection is not a timer – it monitors air-flow to know precisely when your air filter is ready for a change when installed as part of a complete Evolution® System.

Lifestyle Programming

Simple, on-screen prompts help you select comfort settings and corresponding times that best match your lifestyle. When installed as part of a complete Evolution® System including Evolution Zoning, you can enjoy superior comfort and energy savings in up to 8 zones with full, 7-day programmability. You can even switch to a separate vacation schedule without re-programming your everyday settings.

Touch-N-Go® Flexibility

One-touch access to comfort settings allows you to adjust for greater comfort or energy savings as needed.

Take Control From Virtually Anywhere

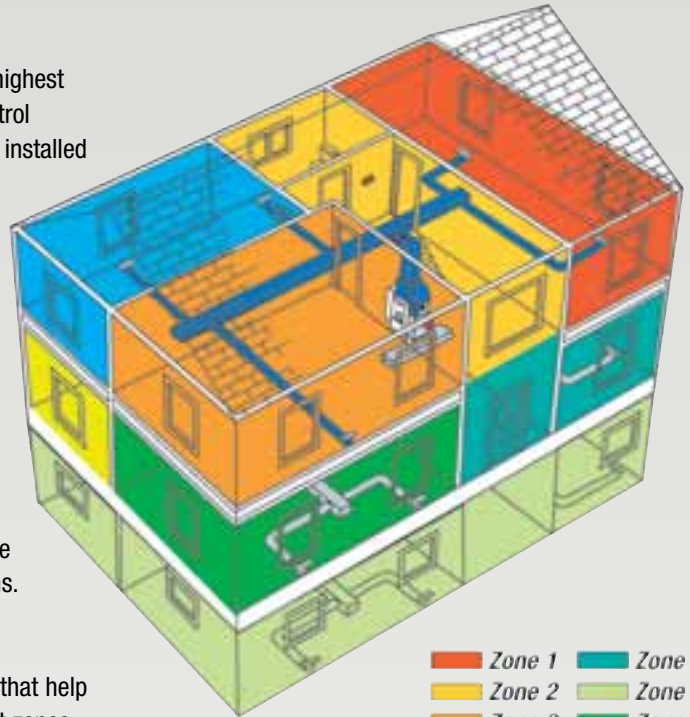

Enjoy full access to the Evolution® Connex™ Control directly from mobile, tablet and desktop devices with a home Wi-Fi network and the appropriate software or app.*

* Wi-Fi enabled model only, when connected to a Wi-Fi network.

The Evolution® Zone Control

Evolution System Zoned Comfort and Efficiency

Dividing your home into zones is the best way to ensure the very highest levels of comfort and energy efficiency. The Evolution® Connex™ Control becomes the focal point of a Bryant Evolution® Zoning System when installed as part of a complete Evolution System. This special system allows you to take charge of temperature, humidity, dehumidification, ventilation, indoor air quality and individual zone airflow in your home from one centrally located user interface.

Up to Eight Zones

Zoned Comfort and Efficiency

Zoning systems make the most of your heating and cooling system by directing conditioned air where AND when it is needed the most so you're not spending money heating or cooling unused rooms.

Customized Zone Names

Create zone names - like "Kitchen," "Family Room," "Den," etc. - that help you easily reference comfort levels and make changes to the correct zones.

Customized Air Circulation

Our patented fan control allows you to set different fan speeds for each zone and for each time period, giving you ultimate flexibility for air circulation.

Customizable, 7-Day Comfort Schedule

Lifestyle programming allows you to create a totally customized comfort schedule for each day of the week for each zone in your home. Or, you can keep it simple by creating weekly and weekend schedules.

Remote Room Monitoring

Smart Sensors or Remote Room Sensors monitor individual zone temperatures and give you the freedom to adjust the temperature setting for that particular zone.

EVOLUTION®
SYSTEM

The Revolutionary Evolution® System

On its own, the Evolution® Connex™ Control is a remarkable upgrade from the ordinary thermostat. And when installed as part of a complete Bryant® Evolution System, this special interface becomes the focal point of your home comfort and energy savings.

The Evolution Connex Control allows you to take charge of your home's temperature, humidity, dehumidification, ventilation and indoor air quality from one centrally located user interface. At the same time, the unique, step-by-step Bryant lifestyle programming and intuitive, on-screen instructional prompts re-define the term, "user-friendly." With full, seven-day-a-week programmability, this system lets you enjoy the best combination of comfort when you're home, and extra energy savings when you're away.

While many people associate humidity issues with outdoor comfort, humidity control is vital to indoor comfort as well. The Evolution Connex Control offers precise and programmable humidity control as part of a complete Evolution System. Bryant Perfect Humidity® technology can monitor and adjust your home's humidity level even when the system isn't actively cooling or heating. As a result, you can save money by achieving your desired comfort at higher settings in the summer and lower settings in the winter.

For additional efficiency, TrueSense™ dirty filter detection lets you know right away when it's time to change your media filter, and the accessory status indicator lets you track maintenance needs of other accessories such as a humidifier, UV lights or a ventilator.

As with all of our products, your local Bryant dealer is the key to putting it all together. He can analyze your needs and show you all of the reasons why a Bryant Evolution Connex Control can be such a great choice for your comfort and satisfaction.
