

High Wall Air Conditioners & Heat Pumps

Duct-Free Systems with R-410A Refrigerant

Right for You

Regardless of how the space will be used – a home theater for entertaining, a workout room for exercise or an office to conduct serious business – a Payne Duct-Free High Wall system is the perfect fit. With its narrow, low-profile design, the indoor unit can blend right in with your decor. You'll find this fully-featured system not only easy and intuitive to use but quietly effective as conditioned air is directed to all areas of the room.

Warm Up to Year-round Savings

Getting comfortable with Payne starts with the ergonomically designed infrared remote control. This sophisticated yet simple to use control puts you in command of comfort-enhancing features like motorized louvers that can sweep to spread comfort or remain stationary to focus on one area.

To combat those especially hot and sticky summer days, a dehumidification mode provides better comfort at higher set temperatures. All of these features and more combine to deliver comfort that's a little louder than a whisper, yet quieter than a basic conversation. To keep the system operating at its best, an easy-to-remove filter can be cleaned easily in a sink, and the entire system is backed by the most trusted name in the business – Payne.

Cooling Only - 13 SEER

Nominal Capacity Btu/Hr		Model Number	Power	Dimension (WxHxD in.)	Unit Weights (lbs)	Sound Rating ¹ (dBa)

*Owner-occupied, single family residential applications only. See warranty card for more details

The Environmentally and Economically Sound Choice

A Payne Duct-Free High Wall system with R-410A refrigerant provides comfort with the satisfaction of being environmentally sound. You'll save money, too, because it's a system you can enjoy when you're using the space and leave off when you're not without affecting the entire home or business. Additional features like the automatic timer and sleep mode ensure the best combination of comfort and energy savings by automatically turning the system on or off at previously set times and adjusting set points and fan speeds while you sleep. Quietly effective and elegantly designed, a Payne Duct-Free High Wall system is a great choice from the most relied upon name in the industry.

Install Now, Pay Later with Payne Financing

If you're like many people, your need for comfort doesn't always match your immediate ability to pay for it. So Payne makes your life easier with 6 or 12 months of deferred interest, minimum monthly payment financing. If you pay it off within the promotional period, you pay no interest. Or, spread your payments over time with a reasonable finance charge. Either way, you can enjoy comfort now, when you need it. Credit provided by GE Money. For more details or to apply for Payne financing to receive pre-approval, go to www.Payne.com.
