EZ3 Wi-Fi® & APP SET UP

LOG INTO THE EZ3 APP

The first time you enter your User Name and Password, it will bring you to the SETUP NEW THERMOSTAT screen.

NOTE:

If this is not the first time you have connected your thermostat to a Wi-Fi network, you will need to first select DISCONNECT.

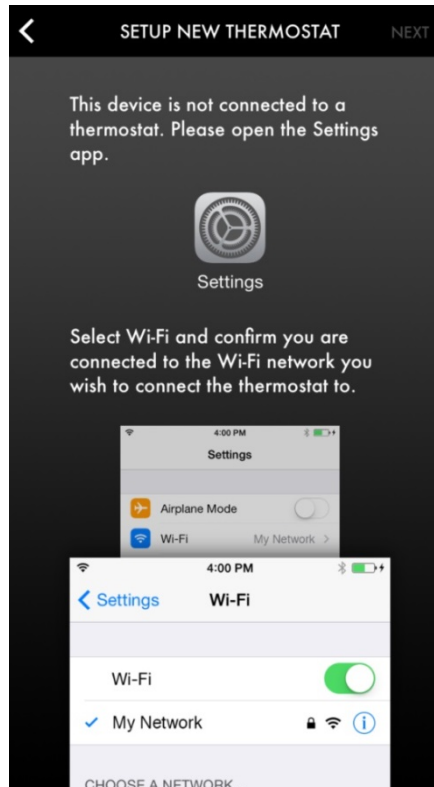

SET UP NEW THERMOSTAT

Select "SETUP NEW THERMOSTAT"

At this time select the Wi-Fi button in the upper left of the thermostat screen. It is red indicating that you are currently connected to Wi-Fi.

Selecting the  icon will open the WIRELESS STATUS on your thermostat, identifying your SSID MAC DSN and REG (registration indicator)

Select SETUP to enable setup mode.

SET UP NEW THERMOSTAT

Next, navigate to and select the "Settings Icon" on your mobile device.

Select Wi-Fi® and confirm that you are connected to your home Wi-Fi network.

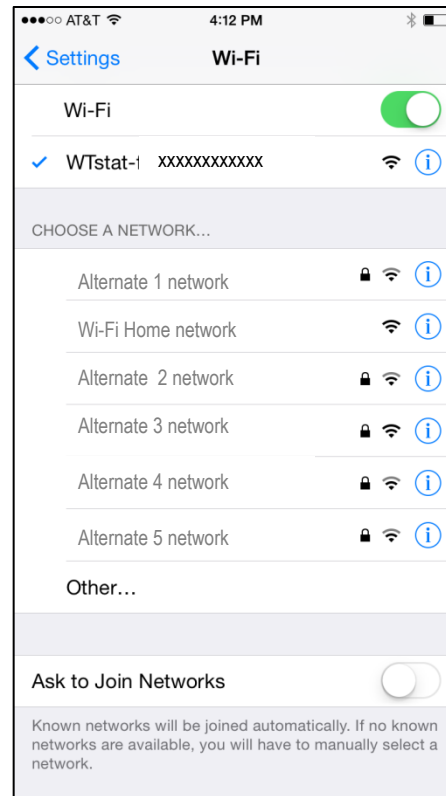

EZ3 Wi-Fi® & APP SET UP

CHOOSE YOUR WI-FI THERMOSTAT

In your Wi-Fi Settings, under “CHOOSE A NETWORK”

Select WTstat-xxxxxxx
(note: this is the address of your thermostat and is unique)

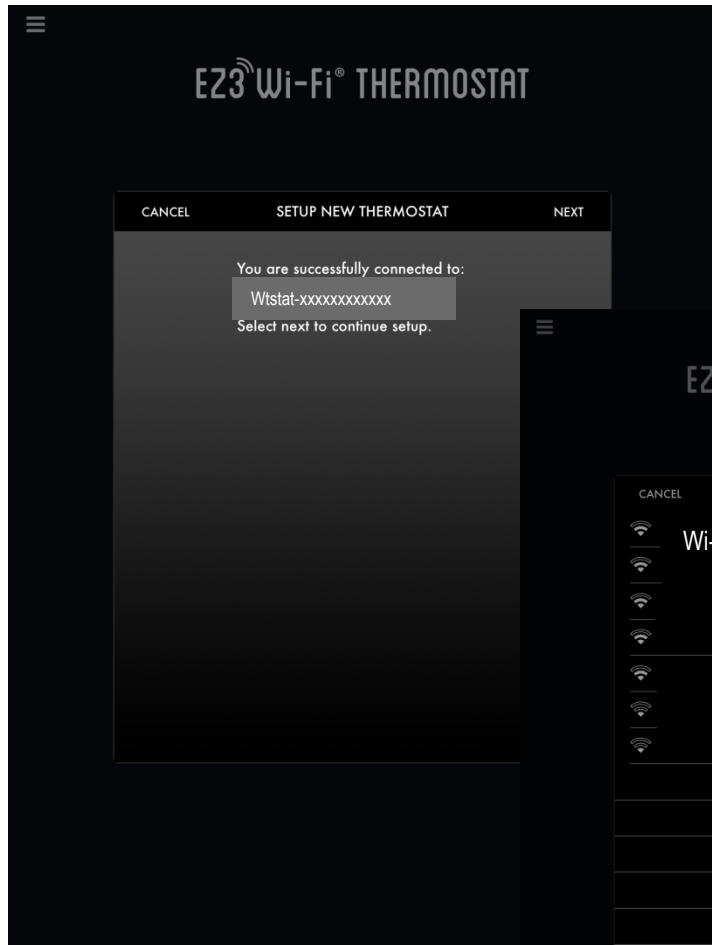

SELECT WI-FI TSTAT

Once you select your thermostat, you will see your app run through several screens. You should automatically be redirected back to your app.

✓ Showing connected to your thermostat

If you are not redirected back to your app, please select Done and then reopen your app.

EZ3 Wi-Fi® & APP SET UP

Set Up New Thermostat (continued)

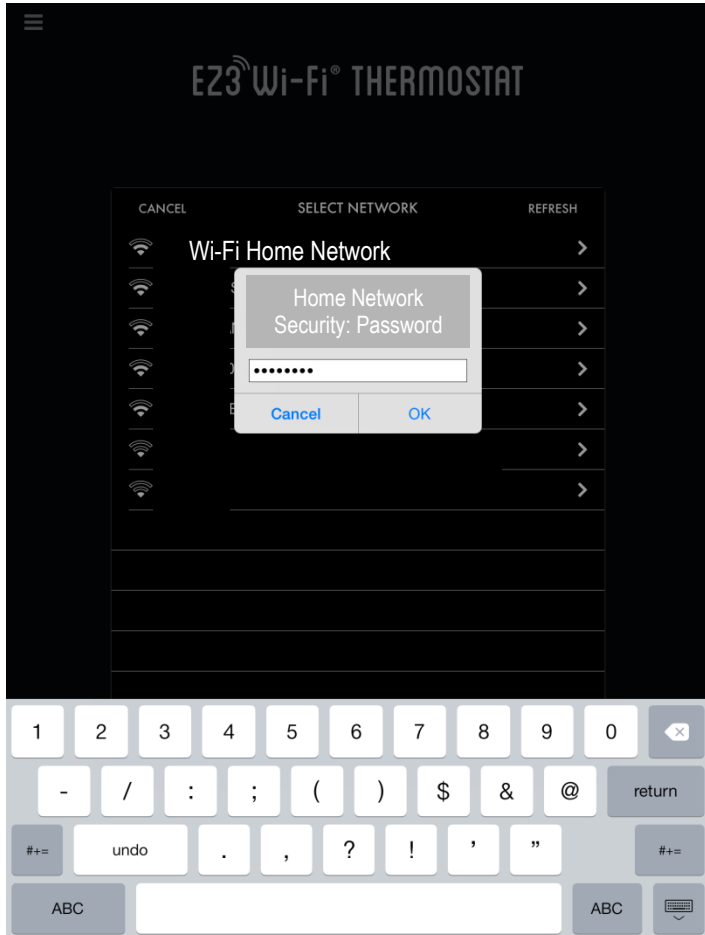

You will see a message that you are successfully connect to your thermostat address

Select "Next"

Allow "Totaline EZ3" to access your location

Select "Allow"

EZ3 Wi-Fi® & APP SET UP

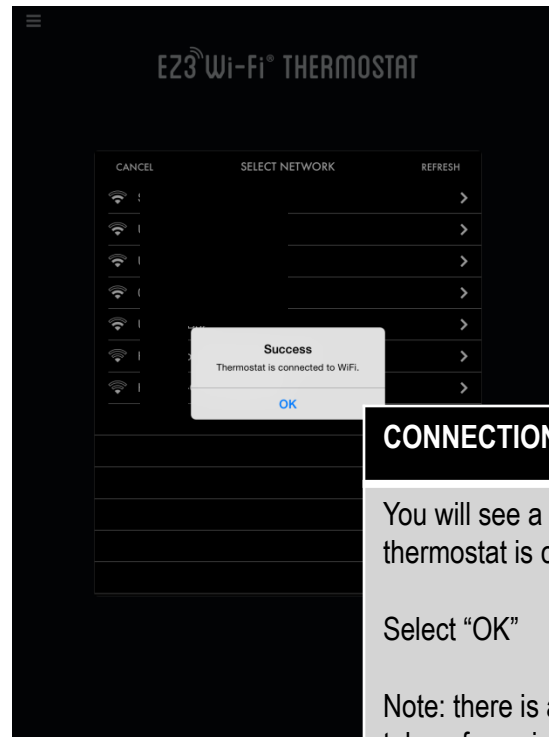

DEVICE CONNECTIVITY

Select your home network that you want your thermostat connected to.

This will prompt you for your home network password, if your home network is password protected.

Enter the password, then Select “OK”

CONNECTION SUCCESSFUL

You will see a message confirming that your thermostat is connected to Wi-Fi.

Select “OK”

Note: there is a progress indicator, this could take a few minutes.
