

AIR CONDITIONERS

Armstrong Air™ air conditioners are engineered for performance that dealers can trust, and homeowners can feel. High-efficiency compressors, Omniguard® Total Corrosion Protection Technology, and advanced fan design deliver quiet, dependable cooling. Every air conditioner is engineered as part of a completely matched system, the cabinet, coil, and controls all work in concert from day one, with no compatibility guesswork. Pro Series™ models elevate performance further with variable-speed operation and smart controls, helping distributors and their dealers deliver the ideal home environment. **Built for Life. Yours.**

Purposeful Engineering

Intentionally designed components that support reliable system performance, integration, and efficient operation—without unnecessary complexity.

Intelligent Comfort

Engineered to deliver balanced airflow and stable comfort while supporting communicating equipment and advanced controls that help optimize system performance when paired appropriately.

Long-Term Ownership Value

Built with durable materials, Omniguard® Total Corrosion Protection Technology, and service-friendly design choices that support reliable performance over the life of the system.

Pro Series Intelligence

Armstrong Air equipment is purposefully engineered to support consistent system performance, long-term durability, and balanced comfort across residential applications. When paired with Armstrong Air matched components, including advanced thermostats, the system is designed to perform as intended, season after season.

Models		A7AC13F	A7AC14F	A7AC22V
Features	Description	Standard efficiency single-stage air conditioner. Available in the Northern U.S. and Canada.	Standard efficiency single-stage air conditioner.	Highest-efficiency, variable-capacity Pro Series™ air conditioner with communicating technology.
	Efficiency Rating ▶	13.4 SEER2 and up	14.3 SEER2 and up	Up to 22 SEER2
Compressor ▶	Delivers consistent, efficient comfort homeowners can rely on while helping dealers reduce callbacks and install with confidence.	Single-Stage	Single-Stage	Variable Capacity
Warranty - Limited on Compressor and Parts* ▶	Backed by a 10-Year Limited Warranty on parts and extended warranty options for your peace of mind.	10 Year	10 Year	10 Year
Omniguard® Coils ▶	Our outdoor units feature Omniguard Total Corrosion Protection Technology, which offers improved corrosion protection compared to traditional coils and helps preserve the system's life for years to come.	✓	✓	✓
Louvered Coil Protection ▶	Fully removable steel louvered panels protect the coil from damage while giving technicians quick, unobstructed access for cleaning and service.	✓	✓	✓
Unit Replacement Program ▶	Enrolled dealers can replace a customer's entire unit, not just a failed part, for up to 10-years on qualifying equipment.	✓	✓	✓
MHT™ Technology ▶	Combines advanced design features to help transfer heat in and out of your home more efficiently, while ensuring consistent comfort.	✓	✓	✓
Quiet Performance ▶	Designed with noise-reducing features such as swept-wing fan blades and a heavy-duty compressor sound blanket, this model operates quietly, so your outdoor activities are not interrupted.	✓	✓	✓
Cabinet Configuration ▶	Built with heavy-gauge steel construction and a durable pre-painted finish, the factory-wired control box is conveniently located for easy operation and setup. Louvered steel panels surround the unit on all four sides for enhanced airflow and protection, while corner patch plates provide quick access to compressor components. Integrated drainage holes in the base ensure efficient moisture removal.	✓	✓	✓
High- and Low-Pressure Protection ▶	Protects the system by automatically shutting down under abnormal pressure conditions, helping dealers reduce risk of compressor damage while giving homeowners added peace of mind.	✓	✓	✓
Advanced Control Board with Fault Code LEDs ▶	Speeds troubleshooting for dealers and delivers dependable, connected performance for homeowners when paired with the thermostat.			✓
Communicating ▶	Pair with a Pro Series variable-capacity AC or heat pump and MyHomeComfort™ CA4 Thermostat for optimized performance. Pro Series Systems deliver higher efficiency, advanced technology, and precise control to create the ideal home environment.			✓
