

CONCORD®

AIR CONDITIONER

Concord® air conditioners deliver reliable cooling performance designed for lasting comfort and dependable system operation. Engineered to integrate seamlessly with matched heating and indoor equipment, they support a wide range of residential and multifamily installations. With a focus on installation flexibility, serviceability, and long-term reliability, these systems provide a dependable solution for replacement projects and common residential applications. **The Right Choice. Right Now.**

Energy Efficient

Designed to meet current regional efficiency standards, Concord air conditioners deliver dependable cooling performance and reliable system operation.

Quiet Operation

Engineered fan design and sound-reducing features help minimize operating noise, supporting a more comfortable outdoor environment during cooling.

Built To Last

Constructed with durable materials and Omniguard® Total Corrosion Protection Technology, Concord air conditioners are built to withstand everyday use and help protect critical components from common environmental exposure, supporting reliable performance over time.

CONCORD

Models		7AC13F	7AC14F	7AC17T
