# MINI-SPLITS

SINGLE- AND MULTI-ZONE SYSTEMS

COMFORT WHERE  
YOU NEED IT MOST.

# A SMART SOLUTION FOR UNIQUE SITUATIONS.

Do you have an add-on room with no ductwork? Or a sunroom that's too hot in the summer and cold in the winter? Concord® mini-splits can help solve heating and cooling problems efficiently and effectively, while also providing year-round energy savings.

## Versatile comfort that adapts to your needs

Each indoor unit has its own control, so you have the flexibility to heat or cool one zone or multiple zones to different temperatures.

## Year-round efficiency that helps save energy\*

Concord mini-split systems are ENERGY STAR® certified and may qualify for utility rebates.\*\*

## Designed to make life more comfortable

Residential applications include:

- Sunrooms
- Workshops, sheds, garages
- Finished attics
- Finished basements
- Home additions

## INSTALLATION IS SIMPLE.

Easy to install, mini-splits connect through a small opening in your wall. Concord mini-split systems blend in with your home environment, operate with minimal noise, and, unlike window units, don't leave you vulnerable to insects, weather elements and theft.

\*Energy savings may depend on several factors, including temperature set point, maintenance, weather, construction type and other factors.

\*\*Utility rebates vary by location. Contact your local dealer to see equipment eligibility in your locale.

CONCORD MINI-SPLITS OFFER GREAT FEATURES, SMART DESIGN AND DEPENDABLE HEATING AND COOLING.

## 4DHPM

### Comfort control in every room

This ENERGY STAR®-certified multi-zone ductless outdoor unit works with up to five indoor modules, so you can set each room to a different temperature, helping to maximize comfort and energy efficiency.

## 4DHPS

### The right temperature, right where you want it

Delivering targeted heating and cooling, this single-zone outdoor unit helps offer year-round comfort and utility savings. The unit's ENERGY STAR® certification means that you could be eligible for money-saving rebates.\*\*

## 4DHVS

### Quiet and efficient operation

Perfect for heating and cooling one specific area, this single-zone outdoor unit features inverter technology that helps deliver quiet, smooth and efficient operation, starting at 17 SEER.

## CHOOSE THE RIGHT INDOOR UNIT FOR YOUR HOME.

### Wall-Mounted Indoor Unit

- Wireless remote control included
- Produces minimal noise and blends in with surroundings
- LED temperature display

### Ceiling Indoor Unit

- 360° air flow
- Concealed in ceiling without additional duct work

### Ducted Indoor Unit

- Ideal for room additions
- Mounted within the ceiling
- Air is ducted to vent like a traditional system

## CONCORD® MINI-SPLIT SYSTEMS ARE THE COMFORTABLE CHOICE.
