

**CONCORD**<sup>®</sup>  
*The Right Choice. Right Now.*

# Gas Furnaces

90%+ AFUE

GET EFFICIENCY AND PROVEN DESIGN.  
AND GET IT NOW.

# Some Decisions Are Tough. This One Isn't.

When you consider a Concord® gas furnace, quality and value are a given. You're getting peace of mind with great features and a smart design—and best of all, you get it right now.

## Efficiency ratings

Consider the AFUE (Annual Fuel Utilization Efficiency) ratings that measure how efficiently the fuel is used by the furnace. Higher numbers mean greater efficiency and lower gas bills for you.\*

## Everyday savings

The blower in a gas furnace operates all year long to circulate hot air or cold air throughout your home. Compared to a fixed-speed (PSC) blower motor, a constant torque or variable-speed blower motor can provide everyday savings on your electric bill.\*

## Is it time to replace your gas furnace?

It can be hard to decide whether to repair or replace. Here are a few things to keep in mind when you're deciding:

- **Age of the furnace** – With the average life span of furnaces being 15-20 years, it's worth considering investing in a new one, as repairs may not be worth the investment.
- **Updates** – New technology is making furnaces more efficient and easier to use and control. Rigorous run testing of each furnace in our factory helps ensure reliable performance in your home.
- **Repair costs** – Once repair costs exceed 50% of the cost of a new gas furnace, a new purchase might be in order. This is especially true if you'll be staying in your house several more years.

WHATEVER YOUR NEEDS, A CONCORD® FURNACE IS THE RIGHT CHOICE, RIGHT NOW.

96% AFUE

96G2V

### Consistent comfort and control

- Two-stage operation adjusts heat output to optimize comfort and efficiency
- Gradual motor acceleration and deceleration for quieter operation

Variable-speed motor provides consistent control over temperature and humidity levels

96% AFUE

96G2E

### Energy-efficient and enhanced comfort

- Constant torque motor maintains consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower
- Two-stage operation adjusts heat output to optimize comfort and efficiency

96% AFUE

96G1E\*\*

### Efficient heating performance

- Constant torque motor maintains consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower

92% AFUE

92G1E

### Reliable heating performance

- Constant torque motor maintains consistent airflow and even temperatures
- Uses up to 1/3 less energy than a fixed-speed blower

## PEACE OF MIND

All gas furnaces are factory run-tested to help ensure reliable performance in your home. They come with a 10-year limited warranty on parts and a limited lifetime warranty on the heat exchanger.†

\* Actual system efficiency may vary; savings may vary depending on use, geography, lifestyle, maintenance, installation and other factors.

\*\* Ultra low NOx (14ng/J) compliant models available in 95% AFUE.

† Timely registration required (except in California, Quebec, or any other jurisdiction where registration requirements to effectuate warranties are prohibited by law). We encourage you to read the full terms and conditions at [www.concord-air.com](http://www.concord-air.com).

## MAKE A FURNACE DECISION YOU WON'T REGRET.

When you think about everything Concord® delivers, your decision is easy. With Concord, all your heating and cooling questions are answered. The performance and reliability you want are right here in a gas furnace that is ready to work for you.

**Concord. It's the right choice. Right now.**
