## Welcome to the MyHomeComfort™ Wireless Extender

The MyHomeComfort Wireless Extender improves the connection between the MyHomeComfort CA4 Communicating Thermostat and MyHomeComfort Smart Room Sensors in larger homes or areas with reduced coverage or "dead spots". This strengthened connection nearly doubles the coverage area and enhances reliability, performance and usability.

### How to Install the MyHomeComfort Wireless Extender

1. Install the **MyHomeComfort app**. Scan the QR code to download the app and user guide and view how-to videos.
2. Plug in the Wireless Extender into a power outlet. Make sure there is no metal in close proximity as it may interfere with the wireless connection.
3. Add the Wireless Extender to the thermostat BLE mesh network. A setup wizard will walk you through the steps to add the Wireless Extender.
4. Confirm the desired Wireless Extender location has adequate signal strength.

### How to Replace or Remove the MyHomeComfort Wireless Extender

1. Install or open the **MyHomeComfort app**. Go to **System Settings** and tap on the Wireless Extender.
2. Tap either **Replace** or **Remove** buttons.

### How to Replace or Remove the MyHomeComfort Wireless Extender

1. Install or open the **MyHomeComfort app**. Go to **System Settings** and tap on the Wireless Extender.
2. You can tap on **Extender Name** and type in your desired Wireless Extender name.

**Note:** Adding or removing a device can only be done through the MyHomeComfort app.

Due to our policy of continuous improvement, specifications are subject to change without notice.
