CONSIDERATIONS & REPAIR OPTIONS

PLANNED & PROBLEM INDICATORS

Regular maintenance intervals and proper inspections are critical to predicting the right time for a repair. There are both visual and non-visual problem indicators that may be causing a loss in productivity and resulting in a higher cost. If you're experiencing problem indicators, it's critical to investigate as additional damage is likely occurring.

PLANNED INDICATORS

- S•O•S™
- Mileage/Hours
- Service history
- Engine hours
- Fuel consumption
- Increased oil consumption
- Inspections

PROBLEM INDICATORS

- Increased fuel consumption
- Unusual noises
- Vibration
- Overheating
- Leaks
- Burning oil/smoke
- Debris in filter
- Lack of power
- Hesitation
- Hard starting

We offer a broad range of parts for any repair including turbos, injectors, oil coolers, water pumps, cylinder packs, gasket kits and more—all backed with a 12-month warranty.

SELF-OVERHAUL

Precious Metals Kits save you up to 30% and help avoid risk through a 12-month parts warranty and the option for an additional four years of coverage.

CAT PROMISE

YOU MIGHT BE THINKING, "CAT PARTS CAN BE MORE EXPENSIVE. WHY SHOULD I PAY MORE?" AT FIRST GLANCE, THE PRICE COULD BE HIGHER BUT THERE ARE SOME **VERY GOOD REASONS**:

1

Cat parts are engineered specifically to the exacting standards of each Cat engine. Those will-fit brands aren't engineered the same way, and that can mean trouble down the road.

2

Cat parts are backed by a 12-month warranty. If the parts are defective, this warranty covers not only the damaged part, but also any resultant damage to other Cat parts that may occur.

3

Customized coverage options are available on parts, repairs and kits. This coverage applies even if you perform the repair yourself.

SAVING FUEL = LONGER LIFE

THE LIFE OF AN ENGINE CAN BE MEASURED BY NUMBER OF LITERS OF FUEL BURNED. THE MORE FUEL THAT IS SAVED, THE LONGER THE LIFE. A FOCUS ON FUEL CONSUMPTION, OIL CONSUMPTION AND MAINTENANCE IS CRITICAL TO ACHIEVE LONGER LIFE.

FUEL CONSUMPTION

Fuel costs are **40%** of overall costs

Contaminated fuel can create injector issues that can burn up to **12%** more fuel alone

Capturing fuel savings from good maintenance can lower operating costs by **5-10%**

OIL CONSUMPTION

When oil consumption increases by **3x** an overhaul is required

MAINTENANCE

Repairing your engine after failure leads to an average increase in cost of **190%**

40-60% of all engine downtime is associated with cooling system problems

COVER individual components or the engine as a whole
PROTECT your overhaul investment for up to four years
NO mileage or hour limitations

We want you to be confident with every repair. That's why we offer **CUSTOMIZED COVERAGE SOLUTIONS** that fit your exact situation.

GUARANTEED TO LAST

Genuine Cat new and Reman parts are backed by our **12-MONTH WARRANTY**, so you can feel confident selecting a repair option through your authorized Cat dealer.

Additionally, if one of the genuine Cat new or Reman parts used in your repair is proven to be defective and the cause of any resultant damage, not only would the Cat new or Reman part be replaced, but any resultant damage to other Cat parts would also be covered. Competitors typically only warranty the part they replace regardless of whether or not the part has caused resultant damage.
