

Vacancy Description

You will join a new and exciting group of Apprentices within a world leading manufacturing organisation, supplying the Worldwide Construction Industry. For the duration of the Apprenticeship, you will spend your time gaining practical experience and developing your theoretical knowledge, along with obtaining formal qualifications, which are recognised and fully transferrable within the manufacturing sector.

You will be working in multiple manufacturing areas within the business, which are fast paced and can be physically demanding, assembling components to a high quality standard and to strict deadlines.

You will perform production related tasks and processes to the highest quality, relying on your excellent attention to detail. You will need excellent communication skills as well as the ability to follow instructions and work within a team. You will have a keen sense of achievement and take pride in the work you undertake.

You will be:

- Adhering to Caterpillar Values in Action
- Follow and utilise Caterpillar Production System principles
- Follow documented standard work procedures/instructions to perform safe and defect free assembly of parts and components.
- Using various hand, power tools and lifting equipment provided in the work area.
- Support continuous improvement reporting.
- Working within the production line assembling Caterpillar products
- Following written and verbal instructions
- Operate built products where required
- Working in fast paced production lines
- Adhere to the Organisation's health & safety policy and safe working practices
- Working to real time orders and targets
- Undertake training and further learning as required.
- Gaining hands on experience, while completing a qualification

Key Details

Vacancy Title: Semi Skilled Manufacturing Apprentice

About Caterpillar:

For more than 90 years, Caterpillar Inc. has been making sustainable progress possible and driving positive change on every continent. Customers turn to Caterpillar to help them develop infrastructure, energy and natural resource assets.

With 2017 sales and revenues of \$45.462 billion, Caterpillar is the world's leading manufacturer of construction and mining equipment, diesel and natural gas engines, industrial gas turbines and diesel-electric locomotives. The company principally operates through its three primary segments - Construction Industries, Resource Industries and Energy & Transportation - and also provides financing and related services through its Financial Products segment.

Monday to Thursday	7:00 to 16:00
Friday	7:00 to 10:30

On the job times will vary according to the business demand and subject to departmental variations.

From the 1st April 2018 the Apprentice National Minimum Wage is £3.70 per hour. This applies to 16-18 year old apprentices and those aged over 19 in the first year of their Apprenticeship. For all other apprentices the National Minimum Wage appropriate to their age applies. The Minimum Wage for Apprentices applies to time spent on the job plus time spent training.

Future Prospects

An Apprenticeship in Performing Manufacturing Operations is designed to help you progress your career within the manufacturing industry. The qualifications are related to jobs roles such as: Manufacturing Operator, Technician or working towards, Team Leader within a wide range of manufacturing disciplines.

Caterpillar's Apprenticeship scheme offers new apprentices an opportunity to gain a minimum of one year's experience, to enable apprentices to become more employable, with the possibility of applying for future apprenticeships as they are designed at our Desford facility.

We have had a number of apprentices apply for permanent positions, and have been successful.

Permanent Caterpillar employees are eligible to apply for our educational assistance programmes.

Reality Check

- Repetitive role.
- Working in a manufacturing environment that can be: Loud/Fast Paced with the need to meet targets/deadlines, some jobs will involve getting dirty.
- The individual must be prepared to work all shift patterns
- Role will involve physical tasks.
- Must be able to follow instructions every time to ensure the quality of the product is consistent.
- Will be standing all day.
- You must be able to travel to the training and vacancy location on a daily basis.
