

D5

TRACK-TYPE TRACTOR

Net Power (1,770 rpm)

ISO 9249/SAE J1349

127 kW (170 hp)

ISO 9249 (DIN)

172 mhp

Operating Weight Ranges

VPAT

17 080-19 340 kg (37,655-42,637 lb)

Push Arm

17 240 kg (38,008 lb)

Cat® C7.1 engine meets Brazil MAR-1 and UN ECE R96 Stage IIIA emission standards, equivalent to U.S. EPA Tier 3/EU Stage IIIA.

The **Cat D5** offers superior performance and the broadest choice of technology features to help you get the most from your dozer. The fully automatic transmission gives you up to 16% better fuel efficiency and more power to the ground. Nimble and responsive, it has power for dozing and finesse for grading.

THE CAT[®] D5

PERFORMANCE AND TECHNOLOGY

Comparisons to D5R2/D6N.

TECHNOLOGY FEATURES TO FIT YOUR BUSINESS

The Premium and High Debris cabs are technology-ready, so you can order technology packages from the factory, or easily upgrade later as your work demands it.

- + Package of Assist features gives you technology, like Cat Grade with Slope Assist™ and Steer Assist, that helps operators of varied skill levels get the job done faster and more easily.
- + Grade 3D with Assist package gives you all of the Assist features, plus 3D Grade and Steer Assist 3D. Get to design plan faster and with less operator effort, so you can save time, money and fuel.
- + Remote Control ready cab enables dealer installation of the Cat Command system.

UP TO 16% BETTER FUEL EFFICIENCY

Fully automatic transmission provides up to 16% better fuel efficiency than D6N/D5R2. Save even more money with longer maintenance intervals and remote diagnostics for more uptime.

UP TO 13% MORE POWER TO THE GROUND

D5 goes beyond D6N/D5R2 with more power (170 hp/127 kW) and added performance to get the job done. Harness up to 13% more power to the ground when pushing, backed up by stronger structures for greater durability.

UP TO 50% MORE PRODUCTIVITY WITH CAT TECHNOLOGY

A broad range of Assist and Grade technology choices help boost productivity so you get the most from your machine. Remote Flash and Remote Troubleshoot help improve job site efficiency by saving you time.

BALANCED WORKLOAD

MAXIMIZE YOUR EQUIPMENT
INVESTMENT WITH ONE
MACHINE **BALANCED FOR
DOZING AND GRADING**

BIGGER, STRONGER

Ideally balanced for both dozing and grading, the D5 delivers more weight and horsepower for even more power and versatility.

FULLY AUTOMATIC

Experience powershift durability with the seamless acceleration of a fully automatic 3-speed transmission. Just set your desired ground speed and the dozer adjusts for maximum fuel efficiency and power to the ground.

BEST-IN-CLASS GRADING

Balanced, nimble and fast, the D5 gives you agility and ideal machine balance so you can achieve high quality grades quickly. A variety of technology features help you grade better and faster, with less operator input.

TURN TIGHTER

Improved steering performance gives you a tighter turning radius and quicker cycle times, so you can work faster and steer around obstacles on the job site with ease.

Comparisons to D5R2/D6N.

SPREAD MORE, GRADE MORE
POWER TO PUSH YOU FORWARD

OPERATOR HELPERS

BUILT RIGHT IN

Assist technology features help make work easier, especially for less experienced operators. Some blade and steering functions are automated so newer operators can work at productivity levels closer to their veteran counterparts. Seasoned operators can enjoy reduced effort, along with faster, more accurate results. Attachment Ready Option (ARO) with Assist bundles these features into one productivity-boosting package.

NO GPS SIGNAL? NO PROBLEM

Cat Grade with Slope Assist automatically maintains pre-established blade position without a GNSS/GPS signal – no additional hardware or software needed. For machines with 3D, operators can easily switch back and forth from full 3D automatics to Slope Assist.

SMOOTH OPERATOR

Stable Blade works seamlessly with operator inputs to help produce a smoother surface when operating manually.

STAY ON TRACK

Steer Assist automates track and blade tilt steering. Helps reduce operator fatigue by automatically maintaining straight travel with light loads or heavy loads on flat ground and side slopes. Helps reduce steering inputs up to 75%. No GNSS/GPS required.

EASY UPGRADES

Attachment Ready Option (ARO) provides wiring and mounting provisions for dealer installation of Grade with 3D, Accugrade, UTS, or other grade control systems.

KEEP PUSHING FORWARD

These Assist features help you make the most of every pass.

Blade Load Monitor gives you real-time feedback on current load versus the optimal blade load based on your ground conditions. Actively monitors machine load and track slip to help you reach optimal pushing capacity.*

Traction Control automatically reduces track slip to save you time, fuel and track wear.*

AutoCarry automates blade lift to help you maintain consistent blade load and reduce track slip.*

Slope Indicate is included in the main machine display and shows side slope and uphill/downhill grades to help operators with slope work.

**Feature not operational indoors or in areas where a GNSS/GPS signal is not available.*

Note: Assist features require Premium, High Debris or Heavy Duty cab.

PROVEN ADVANTAGE

WORK HARDER

EASIER

Cat Assist and Grade technologies work in the background to help dozer operators of varied skill levels and are especially beneficial to less experienced operators. To demonstrate just how much these built-in technology features help, Caterpillar put them to the test. Two novice operators and two expert operators took on three challenges. Each operator completed three runs of each task – one in manual, one using Assist technology features, and one using Assist plus Cat Grade with 3D. The team measured productivity¹, efficiency², completion time, final surface quality and operator inputs.

SLOT DOZING

Productivity and efficiency – novice operators went from 9% lower productivity and efficiency than the experts in manual to matching the experts when using Assist.

TRUCK DUMP SPREADING/ GRADING IN SAND

Completion time – novice operators took 49% more time than the experts in manual and narrowed the gap to 17% using Assist and to 9% by adding Grade.

Blade inputs – novice operator blade inputs were reduced 45% with Assist, and 55% with Assist plus Grade. Expert operator blade inputs were reduced 32% with Assist, and 53% with Assist plus Grade.

Surface quality – novice operator surface quality improved up to 51% using technology while expert operator surface quality improved up to 27% using technology. Novice operators using technology produced similar surface quality to the expert operators in manual.

SIDE SLOPE/STEER ASSIST

Steering inputs – novice and expert operator steering inputs reduced by 75% in forward and by 67% combining forward and reverse.

¹ Material moved per hour

² Material moved per unit of fuel/diesel exhaust fluid (DEF)
Study conducted by Caterpillar, August 2022

LEVEL UP

CHOOSE THE RIGHT LEVEL OF TECHNOLOGY TO FIT YOUR BUSINESS AND BUDGET. ORDER FROM THE FACTORY OR UPGRADE LATER.

TECHNOLOGY PACKAGES THAT HELP BOOST
TIME / MONEY / FUEL SAVINGS

Note: Assist and Grade features require Premium, High Debris or Heavy Duty cab.

3D GRADE CONTROL BOOST YOUR PRODUCTIVITY

- + Factory integrated **Cat Grade with 3D** uses GNSS/GPS to control the blade so you can get to design the plan faster.
- + Cat Grade with 3D has no masts - low profile antennas are integrated into the cab roof and GNSS/GPS receivers are mounted inside the cab for better protection.
- + Automatically follow guidance lines from design plans with **Steer Assist 3D**. Stay on curb lines, centerlines, bottom of slope, etc., without operator effort. Track steering is used under light loads and blade tilt steering may be added under heavy loads.
- + Grade operator interface is intuitive and easy to use: 10-inch (254 mm) touchscreen, Android OS platform, operates like a smart phone.
- + Premium, High Debris and Heavy Duty cabs are Third-party Grade Control ready, equipped with CAN interface, harness pass throughs and mounting features to make it easier to install the grade control system of your choice.
- + All Cat Grade systems are compatible with radios and base stations from Trimble, Topcon, and Leica.
- + Already invested in a grade infrastructure? You can install grade systems from Trimble, Topcon, and Leica onto the machine.

Note: Grade features require Premium, High Debris or Heavy Duty cab.

CAT® TECHNOLOGY IS LIKE HAVING A COACH IN THE CAB

PLAY YOUR BEST

Optimal efficiency,
fewer operator
inputs

KNOW THE SCORE

Real-time Feedback

NO FOUL

Save rework, time, materials

ENHANCED POWER TRAIN CONTROL

TOUGH OUTSIDE

SMART INSIDE

Steering and slope work just got easier. Advanced controls automatically manage the power train and brakes to help operators experience better steering control and to maneuver more easily on slopes. No extra operator inputs to think about – the built-in features just work in the background.

HELP ON HILLS

Hill Descent Control maintains preselected machine speed, without using the service brake pedal, for added control when working downhill. **Hill Hold** automatically engages the brakes to hold position when in neutral on a slope.

PRECISE CONTROL

Use the **Decel Brake Pedal** to control machine speed all the way to a complete stop, or for smooth inching control.

PINPOINT TURNING

Turn tighter when spreading dirt or working in narrow spaces. **Steering Radius Control** uses steering and decel pedal input to automatically downshift for a tighter turning radius and more maneuverability.

Optional displays shown.

UNPRECEDENTED EASE OF OPERATION

No need to worry about shifting gears to get the most from the machine – just choose your ground speed and go. The dozer automatically optimizes based on load for greatest productivity and fuel efficiency.

WORK SPACE

Step in to a spacious cab that resets the industry standard for comfort and visibility. Enjoy a wider air-suspension seat and more storage space, along with updated heating/cooling to help keep you more comfortable and reduce window fogging/frosting too. Choose Premium cab options for even more comfort and productivity.

OPERATOR FRIENDLY DISPLAY

Standard 8-inch (203 mm) gauge cluster gives you a clear view of machine/service functions and settings. Or choose an optional 10-inch (254 mm) touchscreen display with easy-to-use operator interface and High Definition rearview camera that shows prominently in the main display.

Comparisons to D5R2/D6N.

A CAB EVERY BODY CAN LOVE

13 Seat Adjustments*

4 Arm Rest Adjustments

PLUS MORE SPACE, MORE GLASS AREA AND MORE STORAGE

add up to customized for all-day productivity

* Premium seat

SEE YOUR WAY TO MORE PRODUCTIVITY

More visibility around the dozer means you can work with more confidence and precision. Easy machine access saves time and helps make the job site safer.

Comparisons to D5R2/D6N.

BETTER VIEW

Redesigned cab with integrated Rollover Protective Structure (ROPS) has about 15% more glass area to give you better all-around visibility. A steeper hood angle gives you 30% better forward visibility to the blade and work site.

EXTRA EYES

Optional High Definition rearview camera shows prominently in the main display and includes back-up lines to help guide you.

EASY ACCESS

Standard rear ladder puts fueling, filter changes and rear window cleaning in easy reach. Ground-level access to optional fast fuel fill and maintenance points. Grab rail on both sides of cab roof and tie offs add to your safety.

LOWER MAINTENANCE COSTS LESS MAINTENANCE TIME

GET BACK TO WORK

Grouped service points, modular component design and easy access to routine maintenance points save you time every day. Quick-access floor plate option gives you toolless access for easier belly pan clean out. If needed, option allows for 30-minute cab removal, compared to four hours on previous models.

REDUCE UNDERCARRIAGE COSTS

Heavy Duty Extended Life undercarriage - HDXL with DuraLink™ - offers up to 20% more seal life in high-impact conditions. Or choose Cat Abrasion™ undercarriage for high-abrasion, low-impact jobsites. The design offers double the seal life and eliminates bushing turns, reducing your costs by up to 50% per hour compared to traditional undercarriage.

SPEND LESS

Heavier, more robust machine helps increase uptime and reduce overall operating costs. Extended filter life and longer-life LED lights help save you time and money. Optional reversible fan helps remove debris while you work, saving cleanout and maintenance time.

GAIN DURABILITY

Hydraulic and electrical lines running to the blade are guarded for better protection. More robust track roller frame gives you added durability to take on heavier work.

All comparisons to previous model D5R2/D6N.

CAT EQUIPMENT MANAGEMENT TAKES THE GUESSWORK OUT OF MANAGING YOUR EQUIPMENT

Getting the most out of your equipment requires hundreds of decisions, every day. Cat Equipment Management gives you access to all the data you need to keep your equipment on the job site and earning money. You can track equipment location and hours, monitor machine use and health, then take informed action that will keep your operation running smoothly, efficiently and profitably.

CAT PRODUCT LINK™ AND VISIONLINK®

Product Link™ collects data automatically from your assets – any type and any brand. Access information anytime, anywhere with VisionLink® – and use it to make informed decisions that boost productivity, lower costs, simplify maintenance and more. Satellite and/or cellular subscriptions are available.

REMOTE SERVICES

The Cat App helps you manage your assets – at any time – right from your smartphone. See fleet location and hours, get critical required maintenance alerts and even request service from your local Cat dealer.

- + **Remote flash** – get software updates remotely.
- + **Remote troubleshoot** – remote diagnostic testing helps pinpoint potential issues, saving time and money.
- + **Operator ID** lets you track machine operation by individual operator using the main display and Product Link.

REMOTE CONTROL READY

When dozers work in hazardous mining and earthmoving applications, the Command for Dozing option helps improve safety and efficiency. Operators control the machine using a line-of-sight console or a remote operator station. Deep integration with machine systems enables smooth, precise control for maximum efficiency and productivity.

With the line-of-sight console, take advantage of the dozer's built-in operator assist features. The remote operator station also allows full use of Grade and Assist technology features for even greater productivity.

Please consult your Cat dealer for regional availability.

Note: Remote Control requires Premium, High Debris or Heavy Duty cab.

EQUIPPED FOR THE JOB

MAXIMIZE YOUR VERSATILITY

PRODUCTIVITY OUT FRONT

Pick a purpose-built push arm bulldozer with plenty of dirt moving power or a 6-way VPAT blade to maximize your versatility and grading performance.

ON TRACK FOR BETTER PERFORMANCE

Choose from standard or Low Ground Pressure (LGP) configurations. Common structures for Heavy Duty and Cat Abrasion undercarriage allow you to change from one undercarriage type to the other.

TOUGHER TRACTORS

Waste Handler and Forestry arrangements are purpose-built for optimal performance. Factory guarding, seals and cab features help protect your machine and operator in especially harsh conditions.
