## CAT<sup>®</sup> ADVANSYS<sup>™</sup> GET

*Baú Mineração, founded in 2016, is a company located in Northern Brazil in Maranhão state. The main activity is basalt extraction.*

### THE CHALLENGE

- *Baú Mineração had a high cost with their GET systems due to the high severity of their operations with extreme abrasiveness and impact conditions.*

### THE SOLUTION

- *Fabricio Coelho, PSSR from Sotreq, introduced Cat<sup>®</sup> Advansys GET to demonstrate the benefits of the system and to reduce the GET cost per hour of their 324 excavators.*

### THE CUSTOMER RESULTS

#### Product Performance

Mr. Douglas Willyan, administrator of Baú Mineração Mine says, "We've converted one bucket on our 324D excavator to Cat Advansys. We had a 50% reduction in machine downtime, which is significant. The tips now are lasting 40% longer than the previous system, which has reduced my GET cost per hour."
