# Introduction

This document provides instructions for installing an accessory on a Cat® Utility Vehicle (CUV). Do not perform any procedure in this document until you have read and understood the information contained in this document and the Operation and Maintenance Manual.

# **Safety Section**

#### 🛕 WARNING

Do not operate or work on this product unless you have read and understood the instruction and warnings in the relevant Operation and Maintenance Manuals and relevant service literature. Failure to follow the instructions or heed the warnings could result in injury or death. Proper care is your responsibility.

### 

Failure to follow all safety guidelines prescribed in this document and by governing authorities and regulatory agencies may result in severe injury or death of personnel or machine damage.

# 

When removing a major component or attachment, ensure that it is properly blocked or secured before removing mounting hardware. An assembly that is disconnected without proper blocking may shift or fall, resulting in serious injury or death of personnel or machine damage.

#### 

Personal injury or death can result from improper maintenance procedures. To avoid injury or death, follow the procedures exactly as stated below.

#### 🛕 WARNING

Personal injury can result from improper handling of chemicals. Make sure you use all the necessary protective equipment required to do the job. Make sure that you read and understand all directions and hazards described on the labels and material safety data sheet of any chemical that is used. Observe all safety precautions recommended by the chemical manufacturer for handling, storage, and disposal of chemicals.

### 🛕 WARNING

Before servicing/performing maintenance on the machine, electrical power must be physically disconnected; battery cables must be disconnected from the battery. All applicable lock out and tag out procedures must be followed.

# 

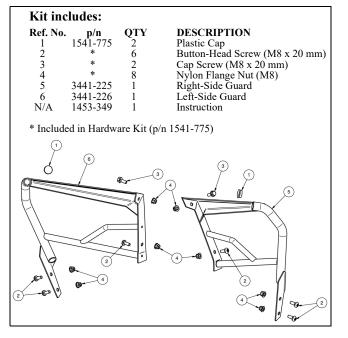

Observe the safe working load limits of all lifting and blocking devices and keep a safe distance from suspended/blocked loads. Personnel may be seriously injured or killed by falling loads.

# 

Do not operate the machine if any guards or covers are missing or inadequately secured. Personnel could be seriously injured or machine damage may occur.

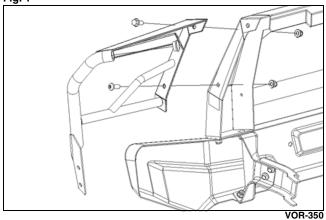

NOTE: Read these Installation Instructions thoroughly before beginning the installation process. Retain these Installation Instructions for future reference.

#### **Tools Required:**

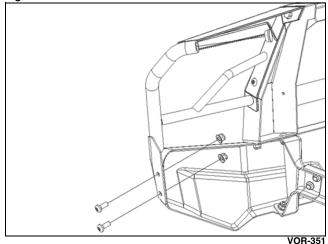

- 3 mm Drill Bit
- 10 mm Drill Bit w/Power Drill
- 13 mm Socket/Wrench
- T45 Torx Bit
- Ratchet Wrench
- 1. Loosely secure Left-Side Guard to the grille guard using one Cap Screw (M8 x 20 mm) (top), one Button-Head Screw (M8 x 20 mm) (bottom), and two M8 Nylon Flange Nuts. See Fig. 1.

- 2. Adjust the lower portion of the guard with the front bumper; then using the guard as a template, mark the center of both lower mounting holes.
- 3. Remove the guard and <u>drill both mounting loca-</u> <u>tions</u> using a 3 mm drill bit; then drill the mounting locations using a 10 mm drill bit.
- 4. Install the upper screws and nylon flange nuts; then secure the lower portion of the guard to the front bumper using two button-head screws (M8 x 20 mm) and two M8 nylon flange nuts. Tighten all hardware securely. See Fig. 2.

5. Repeat for opposite side.
