Power range 1800 rpm Emissions 267-354 kW (engine gross power) U.S. EPA Tier 3

The Perkins[®] 1700 Series is engineered to provide class-leading performance and maximise competitive advantage for our customers.

Developed on the latest generation 9.3 litre core, the 1706 offers greater capability and more flexibility to our customers from a simple plug and play product.

Features and benefits

- A high power density product that combines dependable power and high efficiency coupled with proven core engine designs assures **maximum durability, reliability** and quiet operation.
- Designed to provide more flexibility to our customers and offer a simple plug and play product allowing for **easier installation**.
- With fuel consumption optimised to both prime power and continuous running applications and the requirement for no additional fluids or additives result in **lower cost of ownership**.
- Throughout the life of a Perkins engine, we provide access to genuine OE specification parts along with vee belts and 500 hour oil change intervals enabling **low-cost maintenance**.
- Perkins offer a range of flexible solutions to help provide appropriate support, either to the OEM's network or directly to the machine customer. Our information systems enable our distributors to quickly diagnose engine faults and identify the right parts supported by the Perkins logistics operation ablility to dispatch parts from stock, reaching the customer within 24 hours helping to **maximise the productive life** of your engine.
- Engines are produced using the Caterpillar Production System established in all Perkins manufacturing operations, achieving the same **efficient processes** and **stringent quality controls** at every global facility.

Specification

	Model			
	1706D-E93TAG1	1706D-E93TAG2		
Configuration	ElectropaK			
Cylinders	6 vertical in-line			
Displacement, litres (in ³)	9.3 (567.5)			
Aspiration	Turbocharged aftercooled			
Bore and stroke, mm (in)	115 × 149 (4.5 × 5.9)			
Combustion system	Direct injection			
Compression ratio	16.5:1			
Exhaust aftertreatment	N/A			
Rotation (viewed from flywheel)	Anti-clockwise			
Total lubricating oil capacity, litres (US gal)	26-30 (6.9-7.9)			
Cooling system	Liquid			
Total coolant capacity, litres (US gal)	36 (9.5)

Engine Package Weights and Dimensions

BPerkins[®]

	Model			
	1706D-E93TAG1	1706D-E93TAG2		
Configuration	ElectropaK			
Dimensions, H x L x W, mm (in)	1311 × 2083 × 1091 (51.6 × 81.9 × 42.9)			
Dry weight, kg (lb)	1070 (2359)			

Prime power: Unlimited hours usage with an average load factor of 80 percent of the published prime power over each 24 hour period. A 10 percent overload is available for one hour in every 12 hours operation. No overload is permitted.

Standby power: Limited to 500 hours annual usage with an average load factor of 80 percent of the published standby power power over each 24 hour period. Up to 300 hours of annual usage may be run continuously. No overload is permitted.
