

## COMMITMENT TO MEXICO

Progress Rail has become a leading supplier for the rail industry in Mexico, serving the region for nearly 20 years. With Mexico locations in Monterrey, San Luis Potosi, and Guadalajara, we create solutions for our customers to help maintain the mobility of railroad assets, while ensuring reliability and safety remain at the forefront.

Our locomotive operations and solutions available in the region include inspections, corrective and preventive maintenance. By performing routine maintenance tasks and making necessary repairs, we help our customers' fleets run more smoothly and efficiently, in turn increasing reliability and availability. Progress Rail also purchases, sells, and leases locomotives and switch engines.

Progress Rail continues to grow its Mexico operations and serve our customers by offering competitive, cost effective rail solutions and providing the highest quality service in a timely manner.
