Health & Operations Monitoring - Enabled by Cat® Remote Fleet Vision

Cat Remote Fleet Vision enables your CVA with Caterpillar by providing you with the customized data you need to identify and resolve problems quickly. Locate, track, and manage all your assets with just a few clicks – no matter where you are located or what brands you operate. Choose the features that best fit your goal. Whether you aim to improve efficiency, reduce risk, cut costs, or boost your bottom line, the data is at your fingertips through satellite, cellular or local network connection.

OPTIMIZE PERFORMANCE
Turn data into insights; track hours, location, health and utilization.

IMPROVE OPERATIONS
Provides actionable information to help manage your fleet utilizing health and operations alerts.

INCREASE EFFICIENCIES
From field operators to fleet managers, you can quickly access the data you need to see the most often.

LOWER OPERATING COSTS
Replace physical visits with digital status and alerting.
