CAT® INSPECT RELEASE NOTES

September 2020

Cat Inspect

Cat Inspect is an easy-to-use application that allows users to download and complete Caterpillar and user-defined inspections, with the option to include additional information like images, videos, comments, and ratings. Completed inspection details are easily retrieved from the streamlined web portal for follow up and opportunity management.

NEW FEATURES & ENHANCEMENTS

Cat Inspect Web

1. **Added the ability for Form Authors & Admins to delete Draft inspection forms. This action cannot be undone.**

2. **Added a new column option to the Home page, users can now choose to display the inspector's CWS ID.**

3. **Added the ability for Admins to re-assign an inspection in the Assigned state to the inspection's Details page.**

4. **Added the Work Order field to the PDF report for all non-equipment inspection form types. All Customer Info fields are now displayed.**

5. **Implemented a new feature to allow the creation of text only response questions on forms. This feature is in the website in this release and will be added to the mobile app in a future release.**

Caterpillar: Confidential Green

FIXES

1. **Fixed an issue where Customer users were not able to view their PM Checklist forms on the Form Manager page.**

2. **Fixed an issue in the Inspection Header Items report where date was continuing, or wrapping, to a second row and showing up in the wrong columns.**

COMING SOON

Here is a preview of some new features to expect in our upcoming release schedule

- Mobile Push Notifications – In App mobile push alert to notify a user that they have a new inspection

- Dashboard for Dealers to see customer usage metrics

- Form update to allow user to choose a text response field as an alternative to a rating response. (Web version in production, Mobile App pending)
