NEW FEATURES

Includes all features which have not previously been available or included.

September 2020 – 2.17:

- Native Login: Greatly improved the login user experience
 - Login process is now done natively on the device to greatly improve stability and performance.
 - User can now use biometrics to login back in the application.
- Demo Mode: Users can now explore the application while their account and fleet are being setup.
 - Most application features are available while viewing the demo fleet.

ENHANCEMENTS

Upgrade & improvements to existing product features.

September 2020 – 2.17:

- Improved UI to make it easier to perform self-installs of a PL542.
- Increased periodicity of PL161 hour updates.
- The Secure Start tab has been removed to make room for future enhancements.

FIXES

Remedies applied to known to product issues or software bugs.

September 2020 – 2.17:

- Fixed an iPad UI layout issue that was causing the Demo View to not be full screen.
- Fixed a bug that was causing the equipment to not be displayed for some assets.
- Fixed a time zone bug that was causing weekly fuel totals to sometimes be incorrect.
- Updated the utilization date / time format to be more consistent.
- Fixed issues for Planned Maintenance with sort order correction.
- Fixed a crash for PL452 Scanner.
- Corrected fuel consumption for Empty or Non reported fuel levels.
- Fixed an issue where wrong fuel remaining percentage was being displayed.
- Updated Cat® Support Address to be displayed

OTHER/OPERATIONS

Changes that impact availability, installation, or support for the product.

September 2020 – 2.17:

- None this month.
