

# CAT® INSPECT RELEASE NOTES

November 2020

## Cat Inspect

Cat Inspect is an easy-to-use application that allows users to download and complete Caterpillar and user-defined inspections, with the option to include additional information like images, videos, comments, and ratings. Completed inspection details are easily retrieved from the streamlined web portal for follow up and opportunity management.

## NEW FEATURES & ENHANCEMENTS

### Cat Inspect Mobile Release 4.3.0

1. Cat Inspect 4.3.0 includes updates to the application User Interface (UI) framework.
2. Updates to the photo gallery permission settings on iOS 14
3. Changes to support attaching videos on older Android devices.

### Cat Inspect Mobile Release 4.3.1

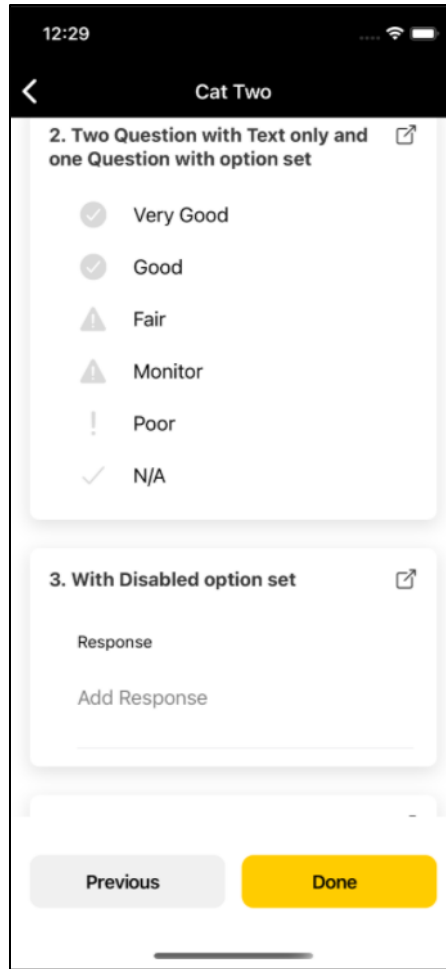

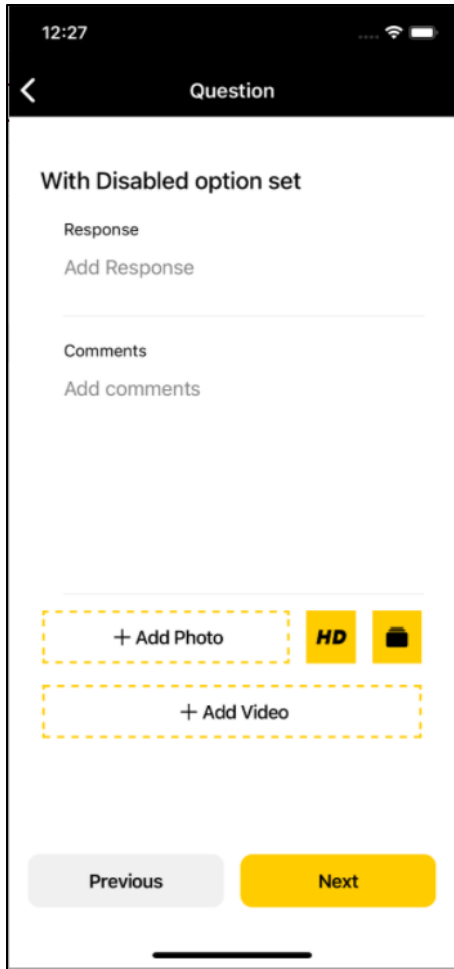

1. Added support for a new feature that allows the forms to have questions with text only responses. Form authors can now select the “DisabledOptionSet” which allows Inspectors to type in a response rather than select a rating.

2. Added a new Dealer feature that will check to see if an asset has any open Service Letters and display of list for review and acknowledgement by the Inspector.

# NEW FEATURES & ENHANCEMENTS

## Cat Inspect Web

1. Added the ability for users to change the order that the columns are displayed on the Home page of the website. Access the “Column Options” from the hamburger menu. Select the columns that you would like displayed on the home screen and then click and drag the hamburger icon of each column name to arrange the order in which they appear.

2. Updated the text field validation when editing inspections. Leading and trailing spaces are allowed in Comments, but blank spaces are not allowed.
3. Updated the system to cancel any open inspection assignment that are older than 90 days. In Process inspections are not impacted.

## FIXES

1. **Mobile 4.3.0:** Fixed a bug that prevented users from sending the inspection log for stuck submissions.
2. **Mobile 4.3.1:** Fixed several bugs from the 4.3.0 release including correcting the email address for contacting Cat Digital Support for assistance.
3. **Web:** Fixed an issue where the website allowed users to remove all images and comments for questions with a Yellow or Red rating. These questions must have at least one image/video or a non-blank comment.
