

Cat[®] 740 EJ

Articulated Truck

The Cat[®] 740 EJ features a world-class cab, re-engineered using global operator feedback to advance comfort and ease of operation. Enhancements include class-leading levels of performance and new features such as Advanced Automatic Traction Control (AATC) and Assisted Ejecting Control, Automatic Retarder Control (ARC), and a fuel-saving Eco mode.

Proven Reliability

- Cat[®] C18 engine delivers proven reliability across a variety of applications.
- Terrain-based throttle control smooths throttle input over rough terrain to improve ride quality.
- Enhanced reliability is achieved through commonality and design simplicity with long life to overhaul.
- Minimized impact of emission control system allows excellent response and ample power.
- Engine compression brake improves response and increases retarding power for controlled descent of grades.

Versatility

- The truck can eject and spread the material while moving, reducing additional spreading and dozing equipment. “On-the-go” ejecting results in faster cycle times.
- Ejecting the load without raising the body maintains machine stability, allowing load dispersal on inclines, side slopes, and in very soft underfoot conditions, especially on landfill sites.
- The truck can eject in areas with reduced overhead clearance, such as around overhead lines or in tunneling and underground operations.
- The body design virtually eliminates material sticking to the body, which increases productivity, improves fuel efficiency, and lowers cost per ton.
- The ejector blade is made from high-strength steel and uses technology similar to that proven in Cat wheel tractor-scrapers.
- A four-stage, high-speed, double-acting cylinder is specifically designed for horizontal mounting and smooth load ejection.

Durability

- All structures and components are proven through extensive testing and customer experience.
- Advanced suspension allows for greater speed over rough terrain, while softening impact loads.
- Front suspension oscillates ± 6 degrees for a smooth ride.
- Frames are designed to handle torque loads, decrease hitch area stress, and optimize suspension geometry.
- Frames are robot-welded for maximum durability.

Achieve Greater Productivity

- Advanced Automatic Traction Control (AATC) decreases wheel slippage, delivering maximum traction and productivity. Fully automatic, no operator action is needed.
- Advanced Productivity Electronic Control Strategy (APECS) and Electronic Clutch Pressure Control (ECPC) deliver smooth gear changes with improved acceleration and increased productivity.
- Automatic Retarder Control (ARC) manages the retarder without any operator interaction. It is fully automatic, 100% of the time.
- New Assisted Ejecting Control allows automatic ejecting of the load.
- Combined eject/transmission lever, exclusive to Caterpillar, places multiple controls on the transmission lever, incorporates park brake, and reduces operator interaction by as much as 50%.

Cat® 740 EJ Articulated Truck

Boost Fuel Efficiency

- Economy mode reduces fuel use without affecting productivity and can be engaged with a single button.
- Next-generation machine design improves fuel economy with minimized maintenance costs and the same great power and response.
- Advanced Mechanically-Actuated Electronically Controlled Unit Injection (MEUI™)-C injector platforms deliver increased injection pressures and more precise fuel rates.

Easy, Comfortable Operator Environment

- Newly styled and updated dash puts controls within easy reach and features LED-illuminated rocker switches.
- Simple, intuitive control and display layouts allow the operator to focus on safe machine operation, while maintaining productivity.
- Spacious cab has seats positioned for optimal operator and trainer visibility.
- Cab climate control is automatic.
- Touchscreen allows easy monitoring and adjustment of systems.
- Make and receive hands-free calls via the optional Bluetooth® equipped stereo.
- Improved automatic climate control system makes maintaining the correct temperature easier. In-cab noise has been reduced by 7 dB.
- Increased and improved storage prevents cabin clutter and is heated or cooled by the HVAC system.

Technology That Gets Work Done

- Integrated systems give you the ability to make timely, fact-based decisions to maximize efficiency, improve productivity, and lower costs.
- Product Link™ system connects to each machine wirelessly, allowing you to monitor location, hours, fuel use, productivity, idle time, and diagnostic codes.
- Operator can view real-time load weights on the touchscreen display.
- External payload indicator lights alert the loader when to stop, reducing the risk of machine overloading.
- Stability assist software reports information via online VisionLink®, increasing awareness of machine history if a rollover has occurred.

Built-In Safety Features

- Cat Detect with stability assist provides audible and visual alerts to the operator if the machine is approaching an unstable angle during operation.
- Operator-presence detection system applies parking brake if gear is engaged and operator is not seated.
- Emergency brake switch (tertiary) allows operator to bring the machine to a safe stop in the unlikely event of both main and secondary brake circuits failing.
- Hill Assist reduces potential roll-back on grades.
- Waiting brake applies the service brakes when neutral is selected and button is pressed, allowing quick and easy control of the machine while dumping and loading.

Reduced Maintenance Costs

- Durable design and easier servicing mean maximized uptime and reduced service costs.
- Universal joints are lubricated for life, eliminating any greasing during the product lifetime.
- Coolant formula improves component life by reducing corrosion.
- Entire machine is designed for greater ease of maintenance with side-tilting cab, electrically raised hood, access panels, and data connector.

Standard and Optional Equipment

Standard and optional equipment may vary. Consult your Cat dealer for details.

	Standard	Optional		Standard	Optional
OPERATOR ENVIRONMENT			POWER TRAIN		
Air conditioning with R134a refrigerant	✓		Auto shift nine-speed forward and two-speed reverse transmission	✓	
Combined gear selection and eject control lever	✓		Cat C18 engine	✓	
Liquid crystal display (LCD)	✓		CX38 transmission	✓	
Mirrors: extensive arrangement for improved visibility	✓		Differentials: standard with automatic clutched inter- and cross-axle differential locks	✓	
Mirrors, heated motorized		✓	Dual circuit oil immersed, enclosed brakes – all wheels	✓	
Machine operation monitoring system	✓		Retarder: engine compression brake	✓	
Operator seat belt, four-point		✓	Three axle, six-wheel drive	✓	
Radio, Bluetooth stereo system		✓	SAFETY		
Seats: operator – fully adjustable, air suspension, retractable lap belt; trainer – padded with retractable lap belt	✓		Reverse alarm	✓	
Seat, heated/cooled		✓	Rearview camera	✓	
Secondary steering – electro-hydraulic	✓		ROPS/FOPS cab	✓	
Sun visor	✓		GUARDS		
Tilt and telescopic steering wheel	✓		Axle	✓	
Touchscreen display incorporating the rearview camera video feed	✓		Crankcase	✓	
Windshield wiper and washer, two-speed, intermittent (front)	✓		Radiator	✓	
TECHNOLOGY			Rear window	✓	
Cat® Detect with Stability Assist	✓		OTHER		
Cat Production Measurement payload monitoring system		✓	Auto lube installation for automatic greasing of bearings		✓
Machine Security System (MSS)		✓	Cold weather coolant -51°C (-60°F)		✓
Product Link™: PL631E or PL641E dependent on location and licensing agreement	✓		Exhaust heated body		✓
Product Link Elite: PLE631E (satellite), PLE641E (cellular)		✓	Fast fuel fill		✓
ELECTRICAL AND LIGHTING			Fuel additive – anti-waxing		✓
Batteries (x2) maintenance free	✓		Mud flaps: wheel arch and body mounted with transportation tiebacks	✓	
Cold weather start attachment		✓	Hydraulic tailgate	✓	
Electrical system: 24-volt, 5A 24- to 12-volt converter	✓		S-O-S SM sampling valves	✓	
Engine block heater		✓	Sound suppression (optional outside EFTA*)		✓
Ether start		✓	Tires, six 29.5R25, radial	✓	
Flashing LED beacon		✓	Vandalism protection: lockable caps	✓	
Lighting systems: cab interior, two head lamps, two width marker, two reversing, work light/cab access light, two stop/tail lights, front and rear direction indicators	✓		Wheel chocks		✓
Main disconnect switch	✓				
Roof-mounted High Intensity Discharge (HID) work lights		✓			

*EFTA countries are EU countries plus Iceland, Norway, Lichtenstein, and Switzerland.

Cat® 740 EJ Articulated Truck

Technical Specifications

Engine

Engine		
Engine Model	C18	
Gross Power (SAE J1995:2014)	381 kW	511 hp
Net Power (SAE J1349:2011)	370 kW	496 hp
Engine Power (ISO 14396:2002)	376 kW	504 hp
Bore	145 mm	5.7 in
Stroke	183 mm	7.2 in
Displacement	18.1 L	1,106 in ³

- Advertised power is tested at 1,700 rpm.
- The net power advertised is the power available at the flywheel when the engine is equipped with alternator, air cleaner, muffler, and fan at minimum speed.
- Net power when the fan is at maximum speed is 348 kW (467 hp) per the SAE reference conditions.
- The C18 engine emits equivalent to U.S. EPA Tier 2 and EU Stage II.

No Engine Derating Below	3050 m	10,000 ft
Peak Engine Torque Gross (SAE J1995:2014)	2618 N·m	1,931 lbf-ft
Peak Engine Torque Net (SAE J1349:2011)	2558 N·m	1,887 lbf-ft
Peak Engine Torque Speed	1,200 rpm	

Weights

Rated Payload	38 tonnes	42 tons
---------------	-----------	---------

Body Capacities

Heaped SAE 2:1	23 m ³	30.1 yd ³
Struck	18 m ³	23.5 yd ³

Transmission

Speed	km/h	mph
Forward 1	6.1	3.8
Forward 2	8.1	5
Forward 3	11.2	7
Forward 4	14.1	8.8
Forward 5	18.7	11.6
Forward 6	22.9	14.2
Forward 7	31.5	19.6
Forward 8	37.9	23.5
Forward 9	54.8	34
Reverse 1	6.4	4
Reverse 2	14.6	9.1

Standards

Brakes	ISO 3450:2011
Cab/FOPS	ISO 3449:2005 Level II
Cab/ROPS	ISO 3471:2008
Steering	ISO 5010:2019

Air Conditioning System

- The air conditioning system on this machine contains the fluorinated greenhouse gas refrigerant R134a (Global Warming Potential = 1430). The system contains 1.2 kg of refrigerant which has a CO₂ equivalent of 1.716 metric tonnes.

Sound Levels

- | | |
|--------------|----------|
| Interior Cab | 72 dB(A) |
|--------------|----------|
- The declared dynamic operator sound pressure level is 72 dB(A) when ISO 6396:2008 is used to measure the value for an enclosed cab. The measurement was conducted at 70% of the cooling fan's maximum speed. The sound level may vary at different cooling fan speeds. The measurement was conducted with the cab doors and the cab windows closed. The cab was properly installed and maintained.
 - Hearing protection may be needed when operating with an open operator station and cab or when not properly maintained or with doors/windows open for extended periods or in noisy environments.

Operating Weights

Front Axle – Empty	19 841 kg	42,243 lb
Center Axle – Empty	7832 kg	17,267 lb
Rear Axle – Empty	7570 kg	16,689 lb
Total – Empty	35 243 kg	77,698 lb
Front Axle – Rated Load	1603 kg	3,534 lb
Center Axle – Rated Load	18 198 kg	40,120 lb
Rear Axle – Rated Load	18 198 kg	40,120 lb
Total – Rated Load	38 000 kg	83,776 lb
Front Axle – Loaded	21 444 kg	47,276 lb
Center Axle – Loaded	26 030 kg	57,386 lb
Rear Axle – Loaded	25 768 kg	56,809 lb
Total – Loaded	73 243 kg	161,473 lb

Body Plate

High Strength Brinell HB450 Wear Resistant Steel		
Front	7 mm	0.28 in
Chute	14 mm	0.55 in
Side	11 mm	0.43 in
Base	14 mm	0.55 in

Service Refill Capacities

Fuel Tank	550 L	145.3 gal
Cooling System	90 L	23.7 gal
Brake Cooling Tank	67 L	17.7 gal
Steering/Hoist Hydraulic System	140 L	36.9 gal
Engine Crankcase	52 L	13.7 gal
Transmission/OTG	75 L	19.8 gal
Final Drives (each)	5 L	1.3 gal
Axles (each)	60 L	15.8 gal

Blade Eject/Retract

Eject (manual)	17 seconds
Eject (automatic)	16 seconds
Retract (manual)	21 seconds
Retract (automatic)	21 seconds
