

Cat® MH3022

Material Handler

We know that when it comes to material handling equipment, your success depends on productivity and low operating costs. The Cat® MH3022 is a purpose-built material handler that features simple-to-use technologies, a redesigned cab for enhanced comfort, and more options to match your work. Combine these features with up to 10% lower operating costs, and you have a safe, quality, and reliable product that will provide you with the superior performance you need for your toughest indoor material handling applications.

Not all features are available in all regions. Consult your Cat dealer for specific configurations available in your region.

High Performance with Lower Fuel Consumption

- Use up to 10% less fuel versus the previous model with no impact on your productivity.
- The C4.4 engine can run on biodiesel up to B20 and meets EU Stage V and U.S. EPA Tier 4 Final emission standards with an aftertreatment system that requires no maintenance or downtime.
- The advanced electro-hydraulic system provides the optimum balance of power and efficiency while giving you the control you need.
- Valve priority puts hydraulic pressure and flow where you need it.
- Boost lifting capabilities and improve the controllability of heavy loads with heavy lift mode.
- Program and store your preferred power mode and joystick settings using your operator ID. The machine will automatically remember your selections.
- SmartBoom[™] lets the boom freely travel up and down without using any pump flow so operators can focus on stick and bucket work.
- The Cat App helps you manage fleet location, hours, and maintenance schedules; it also alerts you for required maintenance and even allows you to request service from your local Cat dealer.
- Product Link™ comes standard so you can remotely monitor machine health, location, hours, and fuel consumption on demand.

Versatility Keeps You Productive and Profitable

- Match your machine to your application. Multiple configurations allow you to customize your machine to your needs.
- Equip your MH3022 with an optional 15 kW generator for magnet operation. Generator controls are fully integrated into the cab monitor.
- Expand your work capabilities with attachments for a variety of applications.

Work in Comfort in the All-New Cab

- Choose between Deluxe and Premium cab options.
- The Deluxe seat is heated and air adjustable, while the Premium seat is heated and ventilated and adjusts automatically.
- The cab has a wide seat that adjusts for operators of all sizes.
- Control the machine comfortably with easy-to-reach controls.
- Standard automatic climate control keeps you at the right temperature all shift long.
- Stow your gear with plenty of in-cab storage beneath and behind the seat, overhead, and in the consoles. A cup holder, document holder, bottle holder, and coat hook are also provided.
- Use the standard radio's USB ports and Bluetooth® technology to connect to personal devices.

Cat® MH3022 Material Handler

Reliability and Durability You Can Count On

- Count on your machine to withstand wear throughout the years.
 Boom, sticks, and other high-stress areas are reinforced with thick multi-plate fabrications, castings, and forgings to ensure quality and reliability.
- Work up to 3000 m (9,840 ft) above sea level without derating.
- Don't let the temperature stop you from working. The material handler has a standard high-ambient temperature capability of 52°C (125°F) and cold start capability of -18°C (-0°F).
- Auto warm up speeds up hydraulic oil warming in cold temperatures and helps prolong the life of components.

Safety

- Cab Avoidance helps you avoid contact between your attachment and the cab.
- Standard E-fence prevents your machine from moving outside operator-defined parameters.
- Keep your machine secure with Operator ID. Use your PIN code on the monitor to enable the push button starting feature.
- Access all daily maintenance points from ground level no need for you to climb on top of the machine.
- Enjoy great all-around visibility with the help of smaller cab pillars, larger windows, and a flat engine hood design. Rearview and sideview cameras are standard along with optional 360-degree visibility system.
- Standard 1800-lumen LED lights on the chassis, boom, stick, and cab illuminate your surroundings for a safer work environment.
- Thicker high-impact and impact-resistant windshields fulfill EN356 P8B and P5A standards respectively.
- Cab air pre-filtration reduces dust entry and air contamination.
 Upgrade to the optional Advanced Cabin Filtration system for additional protection against harmful particles.
- Joystick steering eliminates steering column, improving front visibility and increasing cab entrance width. There is an option for a steering wheel for operators who prefer it.
- New service platform design provides easy, safe, and quick access to the upper service platform. The service platform steps use antiskid punch plate to prevent slipping.
- The standard hydraulic lockout lever isolates all hydraulic and travel functions in the lowered position.
- Optional Falling Object Guard System (FOGS) provides protection from falling and flying debris.
- Ground-level shutoff switch stops all fuel to the engine when activated and shuts down the machine.
- Boom and stick lowering check valves prevent reverse flow, keeping your front linkage securely in place should the hydraulic system unexpectedly lose pressure.

Superior Serviceability

- Track your machine's filter life and maintenance intervals via the in-cab monitor.
- Change all fuel filters at a synchronized 1,000 hours.
- Expect the new air intake filter with cyclone precleaner to last up to 1,000 hours.
- The new hydraulic oil filter provides improved filtration performance, anti-drain valves to keep oil clean when the filter is replaced, and longer life with a 3,000-hour replacement interval – 50 percent longer than previous filter designs.
- High-efficiency, electrically driven cooling fans run only when needed; you can program intervals, so they automatically reverse to keep cores clean without interrupting your work.
- S·O·SSM ports simplify maintenance and allowing for quick, easy extraction of fluid samples for analysis.

Standard and Optional Equipment

Standard and optional equipment may vary. Consult your Cat dealer for details.

	Standard	Optional		Standard	Optional
BOOMS AND STICKS			ENGINE		
6.4 m (21') Straight MH boom		✓	C4.4 engine	✓	
5.35 m (17'7") Straight MH boom		✓	One-touch low idle with automatic engine	✓	
5.26 m (17'3") Variable Angle boom		✓	speed control		
5.65 m (18'6") One-piece boom		✓	Automatic engine shutdown	✓	
4.5 m (14'9") Drop Nose MH stick		✓	52°C (125°F) high-ambient capability	✓	
4.3 m (14'1") Straight MH stick		✓	-18°C (-0°F) cold start capability	✓	
4.0 m (13'1") Drop Nose MH stick		✓	Electric fuel priming pump	✓	
2.9 m (9'6") Reach stick		✓	Double element air filter with integrated	\checkmark	
2.5 m (8'2") Reach stick		✓	precleaner		
CAB			On-demand electric cooling fans with auto-reverse function	✓	
Advanced sound-suppressed TOPS cab	✓		HYDRAULIC SYSTEM		
(ISO 12117-2 compliant)			Electric main control valve	✓	
Deluxe cab: air suspension heated seat, 10" touchscreen monitor		✓	Automatic hydraulic oil warm up	√	
Premium cab: air suspension heated seat,			Automatic swing brake	√	
10" touchscreen monitor		V	Separate dedicated swing pump	√	
Keyless push-to-start engine control	✓		Boom and stick lowering check valves	√

For additional information and additional regional offerings, refer to the Technical Specifications brochure available at www.cat.com or your Cat dealer.

Cat® MH3022 Material Handler

Technical Specifications

Engine			
Engine Model	Cat C4.4		
Engine Power – ISO 14396:2002	110 kW	148 hp	
Net Power – ISO 9249:2007	108 kW	145 hp	
Bore	105 mm	4 in	
Stroke	127 mm	5 in	
Displacement	4.4 L	269 in ³	

- The net power advertised is the power available at the flywheel when the engine is equipped with alternator, air cleaner, aftertreatment, and fan at minimum speed.
 The MH3022 meets U.S. EPA Tier 4 Final and EU Stage V emission standards.

Transmission			
Maximum Travel Speed (with steering wheel)	20 km/h	12.4 mph	
Maximum Travel Speed (with joysticks)	15 km/h	9.3 mph	
Drawbar Pull	127 kN	28,550 lbf	
Maximum Gradeability 65%			

Hydraulic System			
Main System – Maximum Flow – Implements	306 L/min	81 gal/min	
Maximum Pressure – Implements	37 000 kPa	5,366 psi	
Maximum Pressure – Travel	35 000 kPa	5,076 psi	
Maximum Pressure – Swing	36 500 kPa	5,294 psi	

Machine Weights			
Minimum Operating Weight	21 200 kg	46,750 lb	
Maximum Operating Weight	24 500 kg	54,000 lb	

• Operating weight includes full fuel tank, operator, 1400 kg (3,086 lb) work tool. Weight varies depending on configuration.

Service Refill Capacities			
Fuel Tank Capacity	350 L	92.5 gal	
Diesel Exhaust Fluid Tank	30 L	7.9 gal	
Cooling System	36 L	9.5 gal	
Engine Oil	13 L	3.4 gal	
Hydraulic Tank	155 L	40.9 gal	
Hydraulic System (including tank)	345 L	91.1 gal	
Rear Axle (differential)	14 L	3.7 gal	
Steering Axle (differential)	10.5 L	2.8 gal	
Final Drive (each)	2.5 L	0.7 gal	
Powershift Transmission	2.5 L	0.7 gal	

Swing Mechanism		
Swing Speed	8.2 rpm	
Maximum Swing Torque	54 kN•m	39,533 lb-ft

Dimensions				
Boom	MH Boom 6.4 m (21'0")			
Stick	Straight 4.3	Straight 4.3 m (14'1")		
Shipping Height with FOGS	3350 mm	11'0"		
Shipping Length	9600 mm	31'6"		
Shipping Length (with push blade)	9860 mm	32'4"		
Machine Length	4950 mm	16'3"		
Machine Length (with push blade)	5390 mm	17'8"		
Tail Swing Radius	2600 mm	8'6"		
Counterweight Clearance	1300 mm	4'3"		
Cab Height – Lowered	3350 mm	11'0"		
Cab Height – Lowered with FOGS	3350 mm	11'0"		
Cab Height – Raised	5750 mm	18'10"		
Cab Height – Raised with FOGS	5750 mm	18'10"		
Wheel Base	2600 mm	8'6"		
Shipping Width	2540 mm	8'4"		
Ground Clearance	330 mm	1'1"		
Undercarriage Length	4900 mm	16'1"		
Undercarriage Length (with push blade)	5365 mm	17'7"		
Upper Frame Width (including handrails)	2540 mm	8'4"		

Working Ranges			
Boom	MH Boom 6.4	MH Boom 6.4 m (21'0")	
Stick	Straight 4.3	Straight 4.3 m (14'1")	
Maximum Height	11 710 mm	38'5"	
Minimum Dump Height	4290 mm	14'1"	
Maximum Reach	10 280 mm	33'9"	
Maximum Reach at Ground Line	9800 mm	32'2"	
Maximum Depth	1500 mm	4'11"	
Boom Pin Height	8200 mm	26'11"	

Air Conditioning System

· The air conditioning system on this machine contains the fluorinated greenhouse gas refrigerant R134a (Global Warming Potential = 1430). The system contains 1.05 kg of refrigerant, which has a CO₂ equivalent of 1.502 metric tonnes.
