

CAT® VISIONLINK RELEASE NOTES

March 2021

VISIONLINK

NEXT GENERATION ASSET MONITORING & FLEET MANAGEMENT

VisionLink Offers:

- Customizable dashboards
- Dynamic reporting capabilities
- Actionable information to make key decisions to help you improve your bottom line
- Navigate easily through the intuitive and mobile-ready interface
- Available in multiple languages

WHAT'S NEW

- VisionLink Administrator
 - The Site Runtime Report can now be filtered by sites (geofences). A new Filter by Site option provides more precision for dealers and customers billing runtime hours reported by any asset only in the selected geofences over time.
 - VisionLink now supports Volvo AEMP 2.0 API Integrations

NEW FEATURES AND ENHANCEMENTS

Administrator

The **Site Runtime Report** can now be filtered by sites (geofences). A new **Filter by Site** option provides more precision for dealers and customers billing runtime hours reported by any asset only in the selected geofences over time. By default, the option is set to **Yes** to filter the report by geofences; if the option is set to **No**, the report can be filtered by selected assets, groups, or geofences as before.

Filter By Site:

Yes
 No

This report can be run as a one-time report or scheduled. If the report is scheduled, this filter option cannot be changed.

VisionLink now supports Volvo AEMP 2.0 API integrations.

When setting up Volvo AEMP 2.0 integrations in VisionLink, you must enter two sets of credentials:

- **IDP Credentials (User ID and Secret)**
- **API Credentials (API Username and Password and API Key)**

The screenshot shows the VisionLink Administrator interface for configuring a Volvo AEMP 2.0 integration. At the top, the title is "VISIONLINK Administrator" with a user ID "(TD00)". A progress bar indicates the configuration steps: "Provider" (completed with a green checkmark), "Username & Password" (in progress), and "Success" (pending). Below the progress bar, the configuration form includes:

- Provider:** A dropdown menu set to "Volvo".
- Format:** A dropdown menu set to "ISO 15143-3 (AEMP 2.0)".
- URL:** A field that has been redacted with a blue bar.
- Integration Name:** A text field containing "TD00+Volvo+ISO15143-3(AEMP2.0)".
- IDP Credentials:** A section with two input fields: "User ID" and "Secret".
- API Credentials:** A section with three input fields: "Username", "Password", and "Key".

At the bottom of the form, there are two buttons: "Cancel" and "Save & View".

These credentials were provided when you set up your account with Volvo Construction Equipment (VCE). For more information on setting up your VCE account, contact your Volvo representative.
