

# Spark **your career** at Caterpillar.

# WELDING TRAINEE

## WE WANT TEAM PLAYERS WHO...

Commit to being **on-time & reliable** • Work well in a **team environment** • Follow **processes** & focus on **results**

Take responsibility for operational **safety, quality, and velocity** • Value technical and interpersonal **skills**

Want to be a part of a **leading global manufacturing company** with a small-town, family-like culture

## REWARDS:

- As a welding trainee, you will **receive competitive pay** with the opportunity for increases based on skills and performance, as well as an **annual opportunity for a merit increase** and a **quarterly bonus**.
- You will receive **full healthcare benefits**, a matching 401(k), paid holidays, paid vacation, among many other benefits.
- Safety is a top priority. **We provide all personal protective equipment** (welding hoods with a cooling filtration system, glasses, gloves, etc.) as well as **pants and jackets with free laundry service**.

## JOB DETAILS:

- Our welding trainees play a critical role in **creating attachments that enhance** the productivity and utility of **Caterpillar machines**.
- Our welding trainees work closely with robotic **welders** and assist with **prep and finish work**. They **use top of the line tools** to perform advanced welding techniques, all while ensuring safety, quality and standard work are followed.
- **Potential to advance your career to become a Welder, Machinist** or numerous other advanced manufacturing jobs based on learned skills, performance and attendance.

# CATERPILLAR®

# “Why do I work at **Caterpillar**?”

“I used to work in production assembly line with the interest of being a welder but not having the opportunity until I started at Caterpillar, I was quickly hired on as a welder and given the proper tools and training to be successful in my field. Within months I was given the opportunity to work up in the company to a Team Lead position and I continue to thrive in my department with my peers. Cat offers different opportunities to those who are interested but can also provide stability for those who like consistency.

—Rachael, Caterpillar Team Lead, employee since March 2020

“After several years of bartending and working at a post office, I wanted a career change. I started with Caterpillar as a painter and am now on a career path to learn how to be a welder one day. The on-the-job training has been very helpful and I really like that the work is different every day. No grown adult should have this much fun!”

—Andi, Caterpillar Wamego employee since June 2018

**INTERESTED IN WELDING BUT DON'T HAVE FORMAL TRAINING OR EXPERIENCE?**

**BUILD THE CAREER YOU'VE ALWAYS WANTED!**

Start out working with robotic welders and advance your career by learning hands-on welding techniques.
