INTRODUCING 2030**GOALS**

Caterpillar has a long-standing commitment to sustainability, with our history of sustainable innovation spanning more than 95 years. We share the concerns of governments and the public about the risks of climate change and support global efforts to mitigate its impact. We are committed to further reducing Caterpillar's greenhouse gas emissions while helping our customers meet their climate-related objectives. We are supporting our customers during the energy transition to a lower-carbon future through investments in new products, technologies and services. We are announcing seven new sustainability goals to achieve by 2030, including five climate- and environmental-related goals and two focused on employee and customer safety.

OPERATIONS ENERGY & EMISSIONS $\bigcirc \emptyset$

We have set a science-based Scope 1 and 2 goal to reduce absolute greenhouse gas emissions from our operations by from 2018 to 2030.

Implement water management strategies at

0% of facilities located in

from 2018 to 2030.

/0 water high-risk areas by 2030.

OPERATIONS WATER

OPERATIONS WASTE

Reduce landfill intensity by

CUSTOMER SAFETY

our products.

Provide leadership in the safety of

people who work in, on and around

PRODUCT EMISSIONS & 🖉 🖉 ENERGY EFFICIENCY

00% of Caterpillar's new products through 2030 will be more sustainable than the previous generation through collaborating with customers, reduced waste, improved design for rebuild/remanufacturing, lower emissions or improved efficiency.

REMANUFACTURING 🐼 🖉

Increase sales and revenues from remanufacturing offerings by from 2018 to 2030.

EMPLOYEE HEALTH & SAFETY 🐼

We aspire to prevent all injuries and will further our industry-leading safety results by reducing Recordable Injury Frequency (RIF) by

Climate- and Environmentalrelated Goal
