

# MY.CAT.COM RELEASE NOTES

August 2021

## MY.CAT.COM

My.Cat.Com delivers a means to help customers understand, track, manage and optimize owning and operating cost by being proactive, productive and passionate in earning customers trust.

The mission of My.Cat.Com is to be an all-encompassing equipment management tool that supports dealers and empowers customer users with cost, utilization, reliability and age information that helps them run their business more efficiently and effectively.

## WHAT'S NEW

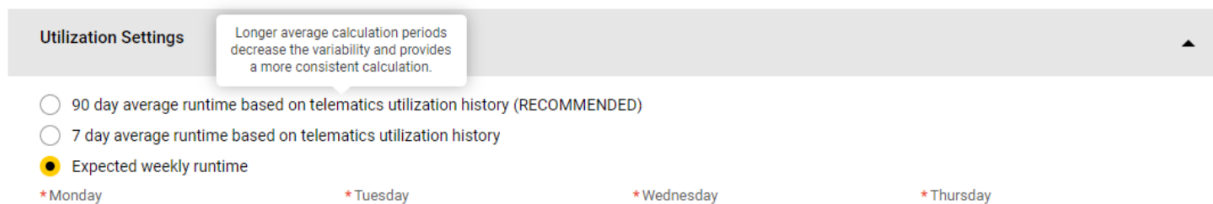

New features added in the August release!

- Tool-tips added for Maintenance “Utilization” options
- New “CAT Rewards” API adopted
- Add Cancelled Date in Registration Report UI Tool-Tip
- Incorrect Model number in MCC

## ENHANCEMENTS

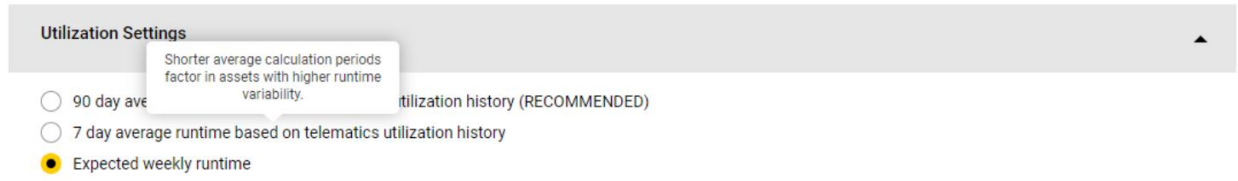

### Tool-tips added for Maintenance “Utilization” options

- Within the “Edit Maintenance Settings” modal, in the “Utilization Options” section – hover-over tool-tips have been added to the “90 day” and “7 day” options. When the user hovers their cursor over the “90 day option” text, or the “7 day option” text - the following tool-tips (with text) display.
- **90 day option:** “Longer average calculation periods decrease the variability and provides a more consistent calculation.”

The screenshot shows a modal titled "Utilization Settings" with a dropdown menu. A tooltip is displayed over the "90 day" option, containing the text: "Longer average calculation periods decrease the variability and provides a more consistent calculation." Below the dropdown, three radio button options are visible: "90 day average runtime based on telematics utilization history (RECOMMENDED)", "7 day average runtime based on telematics utilization history", and "Expected weekly runtime". At the bottom, there are four days of the week with red asterisks: \*Monday, \*Tuesday, \*Wednesday, and \*Thursday.

- **7 day option:** “Shorter average calculation periods factor in assets with higher runtime variability.”

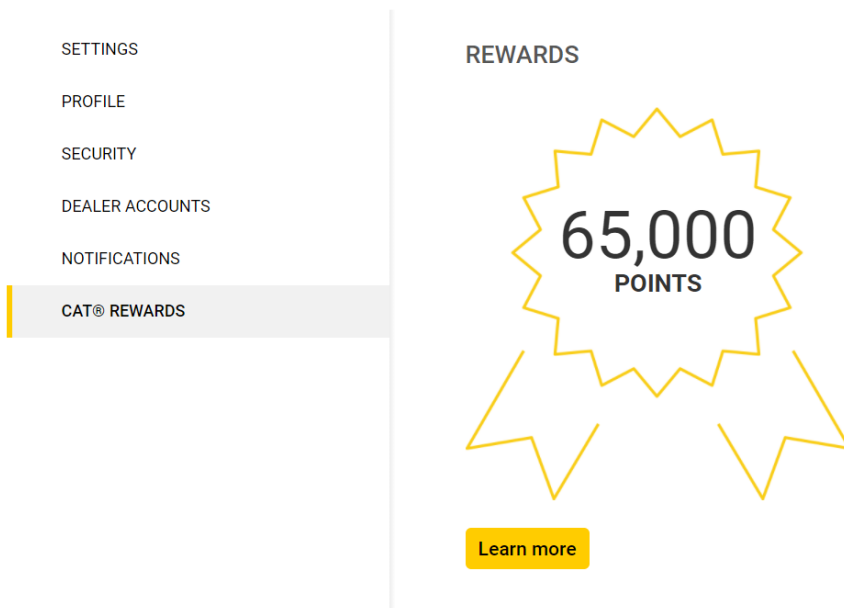

### New “CAT Rewards” API adopted

- Source of “CAT Rewards” data has been updated, and users can only see their points balance.
- Customer users can see their “CAT Rewards” balances under “Account & Settings” – on the “CAT Rewards” tab.

## ACCOUNT & SETTINGS

### Add Cancelled Date in Registration Report UI Tool-Tip

- On the “Registration Report” (“User Report” tab), when there is a cancelled validation request listed (cancelled validation request will be denoted with a grey “X” icon) – hovering over the icon opens a tool-tip.
- The tool-tip should display the following information about the validation request cancellation:
  - Cancellation Reason
  - Cancelled By
  - Cancelled Date

# FIXES

## Incorrect Model Number in MCC

- The Cat Model number for some assets in My.Cat.Com was showing one way, but elsewhere the safe-source model number was not being evaluated correctly.
