

**CAT® UNDERCARRIAGE**

# SUPER EXTREME SERVICE (SES) TRACK SHOES FOR CAT D11 TRACK-TYPE TRACTORS

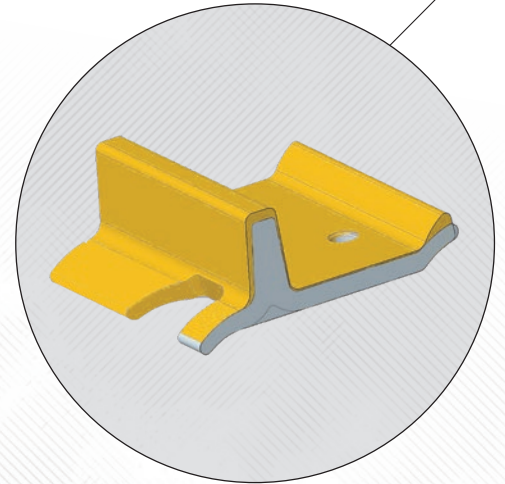

A big dozer working in hard rock generates extreme stresses on track shoes.

To take the punishment, the shoes need more wear material and beefier construction.

That's exactly what you get with **Super Extreme Service (SES) shoes** for Cat® D11 Track-Type Tractors.

Exclusive to Caterpillar, SES shoes feature **30% more** wear material and special construction features — delivering maximum uptime and extended track life, while reducing service needs.

**SES vs. ES**  
Center Cross-Section Comparison

## FEATURES:

### **LARGER GROUSER**

28% wider and 10% taller for maximum life potential

### **THICKER TRACK PAD**

8% thicker pad increases strength

### **PROTECTIVE TRAILING EDGE**

“Whale tail” design improves bolt head protection

### **GROUSER RELIEF**

Less material in low stress region reduces shoe weight

### **PROPRIETARY HEAT TREATMENT**

Maximizes strength and wear resistance

## BENEFITS:

- + **30% GREATER WEAR LIFE** THAN ES SHOES
- + **BETTER WEAR LIFE BALANCE** WITH OTHER UNDERCARRIAGE COMPONENTS
- + **REDUCED SERVICE/REPLACEMENT DOWNTIME**
- + **LOWER COST PER HOUR**

## **TARGETED FOR HDXL**

(HEAVY DUTY EXTENDED LIFE)  
UNDERCARRIAGE

## **AVAILABLE ON HD PPR\***
