REBUILD FOR A SUSTAINABLE TOMORROW

With Caterpillar, you don't have to give up on your current equipment to stay productive. We design our machines for not just one – but for multiple lives.

We focus on developing solutions to optimize our use of resources, maximize the total life cycle value of our products, and minimize the cost of ownership for you.

IT'S GOOD FOR YOUR BUSINESS...

With our Rebuild solutions, you will:

Enhance your machine's efficiency

Upgrade the features of your machine to increase productivity

Benefit from a lower cost compared to buying a new machine

...AND GOOD FOR THE PLANET

Through our Rebuild solutions, we:

Recycled and returned more than 500,000 tons of end-of-life materials to productive use

Re-use on average 65% of the parts when rebuilding your machine(s) thus reducing CO₂ emissions*

*CO₂ emissions associated with manufacturing processes of Rebuild vs. new machine

Minimize the need for raw materials and reduce energy consumption

THINK LONG TERM. THINK REBUILD.

Give your machine a second life – Cat® Rebuilds will keep your machine productive while contributing to sustainable development.

Do something good for your machine – and for the planet. Choose Rebuild now!
