PREDICTABLE, REPEATABLE PERFORMANCE THAT KEEPS YOU ON TARGET.

To meet your production targets every day, you need predictable, repeatable performance from every piece of equipment. Cat® MineStar™ Fleet automatically records and tracks data up and down your value chain, providing insights that help you identify what's working and fix what's not. Fleet is your single best source for fleet-management information that you can use with any machine or system to measure, manage and maximize every facet of your operation.

MEASURE	MANAGE	MAXIMIZE
VIEW your entire operation at a glance on your computer.	**GAIN** insights into key cost drivers – fuel, tires, service parts, idle time, etc.	**IMPROVE** haul fleet production and shovel utilization.
COLLECT real time data on cycle times, payloads and other key performance indicators.	**RESCHEDULE** and reassign equipment quickly as operational requirements change.	**OPTIMIZE** every piece of equipment in your fleet, regardless of manufacturer.
GENERATE targeted reports that make key information easy to understand.	**MINIMIZE** truck wait times at loading tools and fuel stops.	**ENABLE** autonomous haulage and other automated mining systems.
TRACK every machine and instantly see what jobs they are doing and who is operating them.	**FOLLOW** all machine and material movement across your site.	**AUTOMATE** fuel scheduling and shift changes for optimum load counts per shift.
MONITOR machine speeds, operator performance, fault code alerts and more.	**PREVENT** misroutes, ensure that operators and managers know where every load is headed.	**ANALYZE** "what if" scenarios to choose the best course of action when equipment availability changes.
