- » **MANAGE HEALTH**
- » **MANUFACTURER
INDEPENDENT**

CAT® REMOTE FLEET VISION FOR OIL & GAS CUSTOMERS

Cat® Remote Fleet Vision (RFV) leverages your assets' telematics to collect data and present it to you through an easy-to-use web interface. With just a few clicks, you can locate, track and manage all your assets globally, no matter what brands you operate.

The unmatched flexibility of Cat RFV enables you to focus on the most important aspects of your operations, regardless of fleet size or location. Instead of wondering where your assets are or what they're doing, you'll know, enabling you to work more efficiently and lower your operating costs.

REAL-TIME PERFORMANCE MANAGEMENT

- Leverage Cat Remote Fleet Vision's dashboard to target key actions.
- Compare asset utilization, identify inefficient use and right-size your fleet.
- View asset location, daily fuel use & alerts including fleet totals on a single screen.
- Track assets day by day and hour by hour.
- Instantly spot assets running under capacity.
- Customize data and schedule reports for delivery.

EMPOWERING DECISIONS WITH KNOWLEDGE

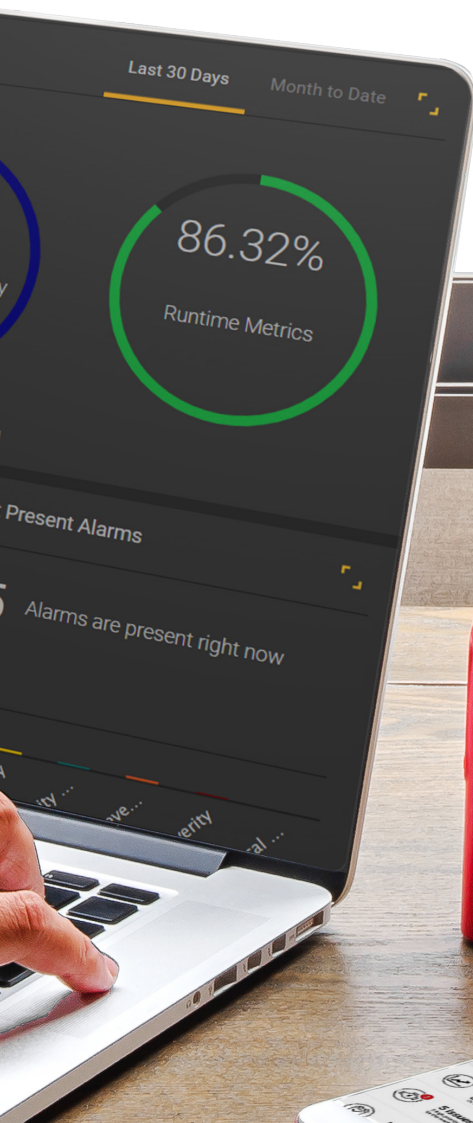

- Locate, track and manage assets with just a few clicks.
- Control costs, improve operations, reduce risk and improve safety.
- Easy-to-use analysis tools improve asset management decisions.
- Cat dealers use asset data to quickly identify and resolve issues.

RIGHT INFORMATION, RIGHT TIME, RIGHT PEOPLE

If an asset goes down, Cat Remote Fleet Vision can send an instantaneous “report by exception” so you can act quickly to resolve the situation. Stay informed by setting security and custom alerts, and have them delivered to the appropriate people via text or email. You can even set site boundaries and track asset location regardless of manufacturer.

With the ability to integrate with any manufacturer’s telematics, Cat RFV provides the right information to right people at the right time.

GET TO KNOW CAT REMOTE FLEET VISION

- » IMPROVE EFFICIENCY**
 Measure fleet performance, improve productivity and maximize engine availability.
- » OPTIMIZE PERFORMANCE**
 Turn data into insights. Track hours, location, health and utilization regardless of manufacturer or location.
- » PINPOINT CRITICAL ISSUES**
 Integrate RFV with any manufacturer's telematics and leverage field and historical data to anticipate maintenance or repair needs.
- » ENHANCE OPERATIONS**
 Replace physical visits with digital status and alerting, and eliminate unnecessary service visits by having the right person with the right part on the first visit.
