

## **CAT**® 966

SUPERIOR TECHNOLOGY. EXCELLENT PRODUCTIVITY.

The Cat® 966 Wheel Loader brings premium performance with simple-to-use technologies, helping to boost operator efficiencies and deliver consistent high bucket fill factors, resulting in highly efficient productivity. Long service intervals help to reduce your downtime. This machine is designed to meet emission standards without interrupting operation, delivering great performance, reliability, durability, and versatility, resulting in a machine that is built to meet your needs.

#### WHEEL LOADERS MADE FOR MORE

Cat wheel loaders were built with efficiency in mind, offering you the best in:

- + RELIABILITY
- + FUEL EFFICIENCY
- + DURABILITY
- TECHNOLOGY
- + PRODUCTIVITY
- VERSATILITY

Experience higher performance while reducing costs and fuel consumption with Cat wheel loaders.

## **EXCELLENT** PRODUCTIVITY

Auto front differential lock,\* improved neutralizer engagement,\*\* and updated on-board job aids help to deliver great machine performance.

## **EFFICIENT** OPERATION

Save time and money with long service intervals, in-cab maintenance reminders, Tire Pressure Monitoring System, and expanded Remote Services capability.

## **BUILT-IN** SAFETY

Spacious cab layout with floor-to-ceiling windshield and left footrest for added stability helps you work more safely. A 4-point seat belt kit with retractors is available. Optional Collision Warning System with Motion Inhibit and People Detection provides enhanced operator awareness at the rear of the machine.

#### MAXIMIZE EFFICIENCY RIGHT FROM THE CAB

Cat wheel loaders feature integrated technologies that help make your operation more efficient.

A MORE EFFICIENT JOBSITE MEANS **MORE PROFIT** IN EVERY LOAD.

<sup>\*</sup>Where applicable

<sup>\*\*966 (14</sup>B) compared to the 966 (14A)

# RELIABLE, PROVEN COMPONENTS & TECHNOLOGY

Staying ahead of the competition, Caterpillar offers a wide variety of cutting-edge technologies to get the job done quickly and easily with outstanding accuracy.

#### COMPONENTS YOU CAN COUNT ON

Every machine is equipped with a combination of proven electronic, hydraulic, cooling, and powertrain systems. Amplify your efficiency with better traction and enhanced work tools, delivering continuous productivity for your machine. Reliable fuel systems boost machine performance and fuel economy, lowering your overall costs and fuel consumption. You can rely on our components to save you time, money, and effort.

#### ON-BOARD JOB AIDS

Job aids help make machine operation easier, while also allowing your operators to improve and optimize their skills on the jobsite.

## POWERSHIFT TRANSMISSION

Featuring a lock-up clutch torque converter, our powertrains deliver smooth shifting, fast acceleration, and speed on grade, amplifying your performance and fuel efficiency.

## OPTIMIZED RIDE CONTROL SYSTEM

Dual accumulator system enables a better ride in loaded and unloaded situations. It improves smoothness over rough terrain, increasing confidence and efficiency and ensuring excellent material retention.

## PRODUCTIVE RESULTS

**BUILT FOR LONG-TERM PRODUCTION** 

#### BETTER TRACTION

New Autodig with Auto Set Tires assures that the front tires have adequate traction for consistent high bucket fill factors, delivering excellent productivity compared to previous model. Automatic front differential lock removes the burden from the operator by automatically engaging the differential lock to improve overall traction. Optional automatic front and rear locks also available.

## PERFORMANCE SERIES BUCKETS

Easy-to-load Performance Series Buckets improve material retention and reduce dig times, significantly improving productivity and fuel efficiency, resulting in unsurpassed production capabilities with increased fill factors – ranging from 100% to 115%.

## AGGREGATE HANDLER

Aggregate packages are specialized offerings for loose aggregate rehandling applications. Payloads can be increased above other applications by installing larger buckets and counterweights in compliance with Caterpillar payload policy.

#### THE RIGHT MIX OF FEATURES

Fine-tuned for the right applications:

- + EXCEPTIONAL FUEL ECONOMY, MAXIMIZED UPTIME, AND LOW MAINTENANCE COSTS
- HIGH POWER AND PERFORMANCE ACROSS A VARIETY OF APPLICATIONS
- + ENHANCED RELIABILITY THROUGH COMMONALITY AND SIMPLICITY OF DESIGN
- + WORLD-CLASS SUPPORT FROM THE CAT DEALER NETWORK
- + DURABLE DESIGNS WITH LONG LIFE TO OVERHAUL

#### 

Axles are designed to handle your most extreme applications. The rear axle oscillates to  $\pm 13$  degrees for excellent stability and traction on even the roughest terrain.

#### HIGH PERFORMANCE POWERTRAIN

Our powertrains come standard with a lock-up clutch transmission, matching the engine power to increase fuel efficiency while delivering optimal performance.

#### **QUICK COUPLERS AND WORK TOOLS**

For versatility, buckets and components can be changed without leaving the cab, allowing the machine to quickly move from task to task.

#### **OPTIMIZED HYDRAULICS**

Our hydraulic systems come equipped with a monoblock main hydraulic valve. This design reduces weight while decreasing leak points by 40%.

### EXTENSIVE RANGE OF ATTACHMENTS

Do more jobs with one machine. An extensive range of work tools and bucket styles are available to optimize these machines for your operation.

#### **DURABLE FRAMES**

The robotically welded two-piece structural frame absorbs impact associated with excavation and loading, while the hitch system provides high bearing force capacity.

## INTEGRATED TECHNOLOGY SOLUTIONS

#### FOR EFFICIENT & SAFER OPERATION

Your machine comes equipped with innovative Cat technologies that give you the edge. Operators of all experience levels will dig and load with more confidence, speed, and accuracy. The result? Better productivity and lower costs.

#### **CAT DETECT**

Rearview camera is standard. This system can be enhanced with an additional display dedicated to the rearview camera as well as for a Multiview (360°) system. To complete the Cat Detect offerings, the machines can be equipped with a rear radar system, which features speed-sensitive alerts and ground clutter filtering to avoid annoyance.

#### **CAT COMMAND**

Cat Command remote control enables equipment operators to work safely outside the machine when working in hazardous environments. Command offers the choice of handheld consoles\* (line-of-sight) or long-distance virtual stations (non-line-of-sight). Deep integration with machine systems enables efficiency and productivity by maintaining the use of in-cab technology\* features.

### COLLISION WARNING SYSTEM WITH MOTION INHIBIT AND PEOPLE DETECTION

The Collision Warning System with Motion Inhibit utilizes radar and vision sensors to detect hazard potentials, alert operators, and inhibit motion in the instant a machine transitions from an inactive to an active state while moving in the rearward direction. Audible and visual alerts can deliver the power to see, mitigate, and manage hazards that may otherwise go undetected to operators.

People Detection is an effective solution that utilizes both a smart camera and radar to alert the operator when a person is detected behind the machine. When machine is stationary for at least 15 seconds, and if the rear detection system detects something in the alarm zone, Motion Inhibit will prevent the machine from engaging reverse gear, helping to keep those who may be unexpectedly around the machine safe.

#### **CAT PAYLOAD\*\***

Cat Payload technology delivers precise bucket load information with on-the-go weighing, which helps prevent over-or underloading. The low lift weigh and manual tip-off functions optimize the final bucket process and maximize efficiency.

#### CAT ADVANCED PAYLOAD

Advanced Payload is a system upgrade that offers expanded features and capabilities. Tip-off assist adds automation to the final bucket process. Multitask mode tracks two loading processes simultaneously. Split mode allows for loading multiple bodies while tracking individual targets and grand totals. Add Dispatch for Loading\*\*\* to integrate the loader into the scale house process. E-Ticketing allows an operator to generate a weighing ticket and effortlessly send it over the air to any email address.

- \* Cat Command is not available in all regions or for all models. Please consult with your Cat dealer for machine compatibility and availability in your area.
- \*\* Not legal for trade.
- \*\*\* Subscription and compatible scale house software required.

#### REAL-TIME INFORMATION FROM CAT EQUIPMENT MANAGEMENT

#### TAKES THE GUESSWORK OUT OF MANAGING YOUR EQUIPMENT

Cat Equipment Management technologies work together to put equipment information at your fingertips. Get real-time access to information on every machine in your fleet on any jobsite – no matter the size of the operation or the brands of equipment you run.

#### **VISIONLINK®**

Gather and summarize machine telematics and jobsite data from all your equipment – regardless of the manufacturer.\* View actionable information such as idle time, fuel burn, location, payload, load counts, total cycles, and more to improve machine efficiency, productivity, and utilization. Access data anywhere via a mobile, tablet, or desktop device – on or off the jobsite.

\* Data field availability can vary by equipment manufacturer. VisionLink® subscription required. Availability may vary by region. Consult your Cat dealer for more details.

#### **CAT REMOTE SERVICES\***

A suite of technologies that improve your jobsite efficiency.

- + Remote Troubleshoot allows your Cat dealer to perform diagnostic testing on your connected machine remotely, pinpointing potential issues while the machine is in operation. Remote troubleshooting helps to ensure the technician arrives with the correct parts and tools the first time, eliminating additional trips, to save you time and money.
- Remote Flash allows you to update onboard software without a technician being present, allowing you to initiate software updates when convenient, increasing your overall operating efficiency.
- Operator ID requires operators to log in via Passcode or Bluetooth® (Cat Key Fob) at machine startup, helping to deter theft, vandalism, and unauthorized use. It saves settings from the last time an operator was logged in and maintains profiles that were retained during machine software flash updates. Operator IDs are easily managed through the touchscreen and can also be managed remotely and uploaded to the machine through Visionlink.

<sup>\*</sup> Must be within cell range coverage.

#### **CAT INSPECT**

Cat Inspect is a mobile application that allows you to easily perform digital preventative maintenance checks, inspections, and daily walkarounds. The app includes machine-specific Preventive Maintenance (PM) checklists to perform service intervals as recommended in the Operation and Maintenance Manual. Inspections can easily be integrated with other Cat data systems like VisionLink®, so you can keep a close eye on your fleet.

## SUPERIOR FUEL EFFICIENCY

#### **ENGINE**

High power density and fuel efficiency set our engines apart. Our engines feature Cat electronics, fuel injection, and air-management systems.

#### **PROVEN ENGINE SYSTEMS**

The C9.3B utilizes technologies to deliver the lowest possible fluid consumption. Including proven common-rail fuel system and latest injector technology.

#### **MACHINE SPEED LIMIT**

Operators have the ability to regulate the machine's maximum speed, which conserves fuel by limiting runout speed in load and carry applications. Controlling the machine's speed also aids in adhering to safety regulations and best practices.

#### ADVANCED SYSTEM INTEGRATION

Low fuel consumption is the result of advanced system integration of the engine, powertrain, hydraulic system, and cooling system.

#### **POWER MODES**

Operating the machine in the standard power mode will assure the best efficiency results in most applications. Using the available HP+ mode will not significantly increase the machine's digging capability but will allow higher speeds on grades in Load & Carry.

## **WORK IN COMFORT**

#### IN THE SPACIOUS CAB

The cab is designed to enhance comfort and efficiency, providing a quiet, more expansive workspace with user-friendly controls to minimize fatigue, stress, noise, and heat during demanding tasks.

#### **CAB ACCESS**

Inclined steps, large opening door, optional remote door opener, and convenient grab handles ease accessibility to the operating space.

#### O≡ OPERATOR ID

Secure machine usage with dedicated Operator IDs. Machine settings are saved separately, increasing shift change efficiency. Unlock the machine using Passcode or optional Bluetooth key.

#### **GREAT VISIBILITY**

Large, wide windows enhance visibility while convex and spot mirrors extend the driver's view on the sides and rear.

#### **COMFORTABLE WORK ENVIRONMENT**

Spacious cab with significant legroom and easily adjustable seat and suspension. 4-point seat belt kit with retractors on the lap belt for added comfort, efficiency, and freedom of movement. A left footrest allows for added operator comfort, safety, and machine stability when working in uneven, bumpy operations.

#### **QUIET CAB**

Sound-suppression, seals, and viscous cab mounts decrease noise for a quieter work environment.

#### **COMFORTABLE STEERING**

The standard HMU steering wheel provides precision control, resulting in excellent comfort and accuracy. An optional seat-mounted electro-hydraulic joystick steering system (replaces the HMU steering wheel) is also available in many regions.

#### SIMPLE CONTROLS

#### AT YOUR FINGERTIPS

#### **TOUCHSCREEN DISPLAY**

The easy and intuitive interface lets the operator work with confidence and efficiency. It includes Operator ID, machine settings, job aids, maintenance reminders, help functions, security, rearview camera, and integrated Cat Payload.

#### **CENTRAL DISPLAY**

Featuring easy-to-read analog gauges and LED indicators that allow the operator to quickly monitor critical machine health parameters.

A large text box displays the Cat Payload information as well as gear selection, machine travel speed, time, and hour meter.

#### **KEYPADS**

Easy-to-reach backlit keypads on the implement control pod and the A-post provide instant access to many functions and settings. Only active buttons or functions are illuminated, making it very intuitive for the operator.

Cat wheel loaders are easy to maintain and service, eliminating any potential waste of time or money. Major components are rebuildable, giving the machine a second life and often a third life.

### **KEY FEATURES SAVING YOU TIME, MONEY, AND ENERGY:**

- Tire Pressure Monitoring System allows operator to easily monitor tire pressure from the main machine display, helping to improve machine performance, operator ride, and operating costs.
- Maintenance reminders help to synchronize machine maintenance schedule and reduce operation downtime.
- Convenient access to hydraulic and electrical service centers for easy and safe servicing.
- Remote Troubleshoot can connect the machine to the dealer service department to help diagnose problems quickly so you can get back to work.
- + Remote Flash works around your schedule to ensure your machine's software is up to date for optimal performance.
- + Optional integrated Autolube extends component and service life.
- One-piece tilting hood makes engine compartment access fast and easy.

## THE CAT® 966 SAVES TIME AND MONEY WITH EASIER AND FASTER SERVICE

## DO MORE JOBS

#### VERSATILE ATTACHMENTS AND COUPLERS

For worksites that demand more, you need a wheel loader that is purpose-built for the job. Cat work tools are engineered to handle all of your specific application needs.

#### STANDARD Z-BAR LINKAGE

The proven Z-bar linkage combines digging efficiency with sharp visibility, resulting in excellent excavation, high breakout forces, and superior production capabilities.

#### **OUICK COUPLERS AND WORK TOOL ATTACHMENTS**

A wheel loader equipped with a Cat Fusion™ quick coupler system is a much more versatile machine. Buckets and work tools can be changed without leaving the cab — allowing the machine to quickly move from task to task. Consult your local dealer for availability of a variety of specialty buckets and forks.

#### **PERFORMANCE SERIES BUCKETS**

Performance Series Buckets use a system-based approach to balance bucket shape with the machine's lift and tilt capacity, weight, and linkage. A variety of work tools and bucket styles are available for a range of applications, including general purpose, flat floor, heavy duty rock, and coal-style buckets.

- + Easy loading
- + Fuel efficient
- + Carry more
- Lower operating costs
- + Higher productivity

#### HIGH LIFT LINKAGE

The optional high lift linkage offers increased hinge pin height to load more easily in a variety of applications with any type of bucket or fork.

#### PURPOSE-BUILT SPECIALTY CONFIGURATIONS

Maximize your wheel loader's performance and durability in the toughest applications with application-specific arrangements direct from the factory.

Industrial and waste models – guarding and reinforcement protect components when working in transfer stations, recycling depots, scrap yards,

and demolition sites.

Forestry model – increases lift and tilt capacities for efficiency and productive log and chip handling in paper, pellet, and sawmills.

**Steel mill model** – designed for the challenging work environment of steel mills and slag handling applications.

#### **TECHNICAL SPECIFICATIONS**

See cat.com for complete specifications.

| ENGINE   |                 |              |  |

| Gross Power @ 1,600 rpm – SAE J1995            | 242 kW          | 325 hp       |  |
| Net Power @ 1,600 rpm – ISO 9249,<br>SAE J1349 | 226 kW          | 303 hp       |  |
| ISO 9249 (DIN)                                 | 307 hp (metric) |              |  |
| Engine Torque @ 1,200 rpm – ISO 14396          | 1781 N·m        | 1,313 lbf-ft |  |
| Gross Torque @ 1,200 rpm – SAE J1995           | 1799 N·m        | 1,327 lbf-ft |  |
| Net Torque @ 1,200 rpm – ISO 9249<br>SAE J1349 | 1702 N·m        | 1,255 lbf-ft |  |
| Displacement                                   | 9.3 L           |              |  |

- Cat engine meets Brazil MAR-1 emission standards, equivalent to U.S. EPA Tier 3, EU Stage IIIA, and China Nonroad Stage III.
- The net power advertised is the power available at the flywheel when the engine is equipped with fan, alternator, air cleaner, and muffler.
- Advertised power is tested per the specified standard in effect at the time of manufacture.
- Cat engines are compatible with\* diesel fuel blended with following lowercarbon intensity fuels\*\* up to:
  - 100% biodiesel FAME (fatty acid methyl ester)\*\*\*
  - 100% renewable diesel, HVO (hydrogenated vegetable oil) and GTL (gas-to-liquid) fuels

Refer to guidelines for successful application. Please consult your Cat dealer or "Caterpillar Machine Fluids Recommendations" (SEBU6250) for details.

- \*While Caterpillar engines are compatible with these alternative fuels, some regions may not allow their use.
- \*\* Tailpipe greenhouse gas emissions from lower-carbon intensity fuels are essentially the same as traditional fuels.
- \*\*\* Engines with no aftertreatment devices are compatible with higher blends, up to 100% biodiesel (for use of blends higher than 20% biodiesel, consult your Cat dealer).

## WEIGHT Operating Weight 23 196 kg 51,124 lb

 • Weight based on a machine configuration with Bridgestone 26.5R25 VJT L3 radial tires, full fluids, operator, standard counterweight, ride control, cold start, roading fenders, Product Link™, front manual differential/open rear axles, powertrain guard, secondary steering, sound suppression, and a 4.2 m³ (5.5 yd³) general purpose bucket with BOCE.

|             |           | BUCKET C | APACITIES |                 |                   |
|-------------|-----------|----------|-----------|-----------------|-------------------|

 All dimensions are approximate and based on machine equipped with 4.2 m³ (5.5 yd³) general purpose bucket with BOCE and Bridgestone 26.5R25 VJT L3 radial tires.

#### **AIR CONDITIONING SYSTEM**

The air conditioning system on this machine contains the fluorinated greenhouse gas refrigerant R134a (Global Warming Potential = 1430). If equipped, the system contains 1.6 kg (3.5 lb) of refrigerant, which has a CO<sub>2</sub> equivalent 2.288 metric tonnes (2.522 tons).

<sup>\*\*</sup>EU Noise Directive 2000/14/EC and UK Noise Regulation 2001 No. 1701

#### **STANDARD & OPTIONAL EQUIPMENT**

Standard and optional equipment may vary. Consult your Cat® dealer for details.

| OPERATOR ENVIRONMENT   | STANDARD | OPTIONAL |
