

CAT® VISIONLINK RELEASE NOTES

December 2021

VISIONLINK

NEXT GENERATION ASSET MONITORING & FLEET MANAGEMENT

VisionLink Offers:

- Customizable dashboards
- Dynamic reporting capabilities
- Actionable information to make key decisions to help you improve your bottom line
- Navigate easily through the intuitive and mobile-ready interface
- Available in multiple languages

WHAT'S NEW

Unified Service

Now you can configure the language in **Maintenance Summary** and **Maintenance Asset Details** to view Cat default (not customized) services, steps, and parts lists in one of 10 supported languages.

NEW FEATURES AND ENHANCEMENTS

Unified Service

Now you can configure the language in **Maintenance Summary** and **Maintenance Asset Details** to view Cat default (not customized) services, steps, and parts lists in one of 10 supported languages. Previously, Cat default services, steps, and parts lists were available only in English.

If your preferred language is one of the 10 supported languages, VisionLink translates the default services, steps, and parts into your preferred language. If your language is not supported by this feature, you can configure the language. After it is configured, VisionLink retains the language setting.

1. In **Maintenance Summary** or **Maintenance Asset Details**, select **Actions bar / Select Language**.
2. Select the language from the drop-down list.
3. Select **Apply**.

Note: Additional languages will be supported in future releases.
