CAT with SOS includes the identified SOS fluid sampling costs.
Consult your CVA agreement for information on contract starting point and interval arrangement.

EXCLUSIONS	
	Ensure that all safety information, warnings, and instructions are read and understood before any operation or any maintenance procedures are performed.
	The user is responsible for the performance of maintenance, including all adjustments, the use of proper lubricants, fluids, filters, and the replacement of components due to normal wear and aging. Failure to adhere to proper maintenance intervals and procedures may result in diminished performance of the product and/or accelerated wear of components. Use mileage, fuel consumption, service hours, or calendar time, WHICHEVER OCCURS FIRST, to determine the maintenance intervals.
	Products that operate in severe operating conditions may require more frequent maintenance. This chart is not intended to be a comprehensive list of all maintenance activities that may be recommended or required and does not contain fluids schedules or requirements associated with the above maintenance activities.
*	Valve lash checks are recommended every 1,000 hours
**	Coolant is recommended to be replaced every 2 years, unless Convenience - Used by utilizing Convenience - Used Life Coolant (ELC) additive.
***	The maintenance manual recommends cleaning or replacing the DPF (if applicable) with a new or remanufactured DPF every 3000 hours
****	Seat Belts are recommended to be replaced every 3 years.
*****	Extreme Duty Intervals only relate to select Extreme Duty Contracts
*****	Extreme Duty option not available for 300.9, 301.4C, 301.7D, 301.7D CR, 302.2D, 302.4D, or 302.7D CR

Please note timing of fulfillment of initial and 250 hour interval reimbursements for 300.9D, 301.4C, and 302.7D CR
