

Cat[®] SE60 V

Asphalt Screed

The Cat[®] SE60 V screed with rear-mounted extenders provides stability, easy set-up, and a versatile paving range, making it the perfect match for highways, interstates, airports, and many other high-production paving applications.

Application Versatility

- Common applications include large parking lots, highways, interstates, airports and many other high-production pay for performance applications
- The standard paving range of 3 m - 6 m (9' 10" - 19' 6") provides excellent performance when changing paving widths for both urban and highway paving applications
- Simple, bolt-on extensions offer a maximum paving width of 7.45 m (24' 5")

Simple Operation

- Operating displays can be tailored to specific language requirements with multiple options available
- Exclusive 2-speed, proportional extender control provides smooth adjustment when transitioning paving widths
- Screed operating consoles are equipped with ratio adjustment for the augers and conveyors, providing the ability to modify material flow
- Power controls for extender slope and height enables operators to quickly manage mat angles and surface textures
- Trailing edge screed plate adjusters help maintain an even plane across the width of the screed in order to enhance paving quality and extend screed plate life

Smooth Material Flow

- Screed plate depths of 407 mm (16") on both the main and extenders provide stability and good mat textures
- The heated end gate option helps prevent material from sticking for better edge profiles and joint matching capability

Pave Start Assitant

- Pave Start Assistant saves set-up profiles for repeatable use on future job sites, simply activate the profile for quick, single person setup
- Set-up preferences include: tow-point height, screed heat temperature, paving speed, paving width, paving depth, crown, extender slope and height, screed assist, and screed locking features
- Setup features are located in the left screed display and can also be viewed through the tractor displays

Cat® SE60 V Asphalt Screed

Pendent Control (Option)

- Manual overrides and pause function capability for each auger and each conveyor are available to match changes in material flow requirements
- Power slope and height functions assist with profile
- Automatic Grade Control activation provides flexibility when working on the outer edge of the screed

Cat® Grade Control (Option)

- Factory-integrated leveling system that helps remove irregularities from the surface and control mat thickness for increased production, lower operating costs, and higher profitability
- User-friendly system with text-based displays, split screen-mode, and on-the-go sensor selection
- Precise control driven by 10-point auto-calibration, true averaging with 5 transducers in each sonic sensor, and cross-coupling feature that maintains slope requirements more consistently when changing elevation

Quick Heat, Even Distribution

- The tractor-integrated generator delivers 15 minute heat-up to 130° C (266° F) for quick starts
- Electric heating system with zone monitoring helps ensure even heat distribution and smooth asphalt textures while also allowing heating to continue in the event of a temperature sensor failure

Cat Electronics

- Cat Electronic Control Modules (ECM) and ET compatibility simplifies diagnostics and trouble-shooting procedures

Service and Repair Kits

- Paver and screed service and repair kits include all the parts necessary to complete specific repairs
- Cat genuine parts are manufactured to precise specifications and designed for optimal performance and maximum uptime
- Repair kits are identified by a single part number to make ordering easy
- Select kits are available to be packaged as a kit by the dealer for over-the-counter purchases or through the dealer service shop

Standard and Optional Equipment

Standard and optional equipment may vary. Consult your Cat dealer for details.

Cat® SE60 V Asphalt Screed

Technical Specifications

Machine Weight

SE60 V screed	3550 kg	7,826 lb
---------------	---------	----------

Paving Range

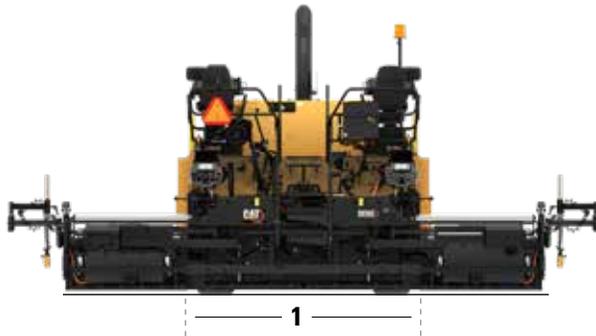

Standard range	3 m - 6 m	9' 10" - 19' 6"
Maximum width w/extensions	7.45 m	24' 5"
Maximum paving depth	305 mm	12"
Crown range – total	-4% to 10%	-30 mm to 75 mm -1.2" to 3"
Extender height range	+50 mm to -20 mm	(2" to -.8")
Extender slope range	-3% to 10%	-30 to 100 mm/m -.36"/ft to 1.2"/ft
Screed plate vibration	0-3500 rpm	

Paver Compatibility

	SE60 V
AP600	X
AP655	X
AP1000	X
AP1055	X

Dimensions

1	Standard width with end gates	3353 mm	11'
2	Length with end gates (front to back)	2394 mm	94"
3	Length without end gates (front to back)	1731 mm	68"
4	Height	2091 mm	82"
5	Walkway depth	323 mm	12.7"
6	Screed plate depth - main	407 mm	16"
7	Screed plate depth - extender	407 mm	16"
	Screed plate thickness	12.7 mm	0.5"
