FIXES

Fix for CC Email addresses removed when more than two email addresses in "TO" field

- The email addresses entered in the "CC" field are not removed when more than two email addresses are in the "TO" field.
- This issue was originally found in the Dealer Admin Invitation acceptance email.

Fix for Error Displayed on "Manage Customer Users Page" when trying to "Resend Invite"

- When a user has attempted to accept an invitation and an error occurs during the processing of the invitation, this invitation is no longer valid and must be resolved by a Cat administrator. Since this invitation is no longer valid it can only be cancelled and cannot be resent or modified. In this rare event, we will only show the Cancel option."

- Consistent display on the "New User Invitations" & "Manage Customer Users" pages - invites that are "inactive".
- MCC shows the invite on both the "New User Invitations" & "Manage Customer Users" pages - even if the invite has been attempted.
- Under "Actions", the options to "Resend" or "Edit" the invitation have been removed - leaving only the "Cancel" option.
